

1 THIS CONSTITUTES NOTICE OF ENTRY
2 AS REQUIRED BY FRCP, RULE 77(d).

UNITED STATES DISTRICT COURT
CENTRAL DISTRICT OF CALIFORNIA

GLOW INDUSTRIES, INC., a California corporation,

) CASE NO. CV 02-06167 MMM (PJWx)

Plaintiff,

) ORDER DENYING PLAINTIFF'S
MOTION FOR PRELIMINARY
INJUNCTION

vs.

JENNIFER LOPEZ, COTY, INC., a corporation and DOES 1-20, inclusive,

Defendants.

On August, 7, 2002, plaintiff Glow Industries, Inc. ("Glow, Inc.") filed this action against defendants Jennifer Lopez and Coty, Inc., alleging trademark infringement, trademark dilution, and federal, California statutory and common law unfair competition. Glow, Inc. has sold bath and body products under the mark GLOW since 1999, and has filed an application for federal registration of the mark that it contends is in the final stages of approval. Glow, Inc. asserts that defendants have infringed the GLOW mark by initiating national sales, promotion, and advertising of an eau de toilette, lotion, and shower gel under the name "Glow by J.Lo." Glow, Inc. seeks a preliminary injunction restraining defendants from making further use of the GLOW mark pending trial on the merits.

(39)

I. FACTUAL BACKGROUND¹

Plaintiff Glow Industries, Inc., a California corporation, first used the GLOW mark in commerce on February 28, 1999, in connection with the sale of "fragrant bath and body products."² It applied for a federal trademark on GLOW on April 29, 1999.³ Terry Williamson, the founder and President of Glow, Inc., states that she "named the product line GLOW because

¹District courts have discretion to consider otherwise inadmissible evidence in ruling on an application for temporary restraining order or preliminary injunction. See *Sierra Club v. F.D.I.C.*, 992 F.2d 545, 551 (5th Cir. 1993) (“at the preliminary injunction stage, the procedures in the district court are less formal, and the district court may rely on otherwise inadmissible evidence, including hearsay evidence. Thus, the district court can accept evidence in the form of deposition transcripts and affidavits” (citations omitted)); *Republic of the Philippines v. Marcos*, 862 F.2d 1355, 1363 (9th Cir. 1988) (“It was within the discretion of the district court to accept this hearsay for purposes of deciding whether to issue the preliminary injunction”); *Flynt Distrib. Co., Inc. v. Harvey*, 734 F.2d 1389, 1394 (9th Cir. 1984) (“The Harveys argue that Flynt’s evidence is hearsay. The urgency of obtaining a preliminary injunction necessitates a prompt determination and makes it difficult to obtain affidavits from persons who would be competent to testify at trial. The trial court may give even inadmissible evidence some weight, when to do so serves the purpose of preventing irreparable harm before trial”); *Gerling Global Reinsurance Corp. of America v. Quackenbush*, Nos. Civ. S-00-0506WBSJFM, Civ. S-00-0613WBSJFM, CIV S-00-0779WBSJFM, Civ.S-00-0875WBSJFM, 2000 WL 777978, * 3, n. 5 (E.D.Cal. Cal. 1998) (“Although the parties have not formally objected to the hearsay basis of this statement, Michaels notes in his moving papers that numerous hearsay objections arise from Revilla’s deposition. Although Revilla’s assertions about the statements of his unnamed client would be subject to a hearsay objection at trial or at summary judgment, the Court may consider hearsay at the preliminary injunction stage”); *Mattel, Inc. v. MCA Records, Inc.*, No. CV 97-6791 WMB, 1998 WL 422641, * 1 (C.D. Cal. Feb. 18, 1998) (denying both parties’ motions to strike declarations because “‘strict evidentiary rules’” do not apply to preliminary injunction hearings (citations omitted)).

²Declaration of Terri Williamson in Support of Motion for Preliminary Injunction (“Williamson Decl.”) ¶ 4, Ex. B.

³Williamson Decl., ¶ 5, Ex. B (page from Patent and Trademark website showing status of Glow, Inc.’s trademark application); Declaration of Arthur Aaronson in Support of Motion for Preliminary Injunction (“Aaronson Decl.”), ¶ 4; Declaration of Lisa Pearson in Support of Defendant’s Opposition to Motion for Preliminary Injunction (“Pearson Decl.”), ¶ 3, Ex. 49 (file wrapper for Serial No. 75/693,513 of plaintiff’s GLOW application).

1 of the positive feeling the word evokes.⁴ Glow, Inc.'s trademark application specifies that the
2 mark is used in connection with the sale of skin soaps, bubble bath, skin lotions, skin
3 moisturizers, and candles.⁵ Williamson states that her company's initial offerings, as reflected
4 in the trademark application, were "lotions, oils, shower gels, candles and bath products." She
5 asserts, however, that a GLOW perfume was developed, tested, and sold at Glow, Inc.'s retail
6 store in fiscal year 2000. The perfume was launched on a national scale in 2001.⁶

A. Glow, Inc.'s Use Of The GLOW Mark

The GLOW line was sold at Glow, Inc.'s retail store in Los Angeles commencing in 1999. It was offered through the national beauty website <www.gloss.com> beginning in the Spring of 2000.⁷ Following a launch at the Paramount Hotel in New York City attended by approximately forty members of the national press in April 2000, the line was offered at Bergdorf Goodman in New York City commencing in the Fall of 2000.⁸ GLOW products are currently sold at various retail establishments across the country, including: Nordstrom stores in many states; Ritz Carlton Hotels; Glow, Inc.'s own store in Los Angeles; and retail stores in California, Washington, Utah, Montana, New York, New Jersey, Pennsylvania, Illinois, Michigan, Ohio and Florida. They are also offered on Glow, Inc.'s internet site <www.glowspot.com>.⁹ The products are physically present in stores in thirteen states, and have been sold in all fifty states through boutiques, department stores, the internet, and mail order.¹⁰ Glow, Inc. has also participated in co-branding ventures with prominent national companies such as Reebok and the

1 Ritz-Carleton.¹¹

2 Williamson started Glow, Inc. using her own resources, and asserts that the company has
 3 been engaged in grass-roots marketing since its inception.¹² GLOW products have been featured
 4 in magazines such as "InStyle" (featuring GLOW oversized all-natural bath cakes in February
 5 2002; GLOW bath and body products, including body oil, shower gel, and lotion in May 2001;
 6 and the GLOW "Male Pail" gift basket with bath and body products for men); "Los Angeles
 7 Magazine" (featuring GLOW aromatic bath products, including lotion and lip balm in July 2000);
 8 "Harper's Bazaar" (featuring GLOW aromatherapy oils in September 2002); "The Hollywood
 9 Reporter" (featuring GLOW bath and body gift pails and boxes in November 2000);
 10 "Mademoiselle" (featuring GLOW "naughty night pillow mist" in November 2000); "Marie
 11 Claire" (featuring GLOW soaps in September 2000); "Seventeen" (featuring GLOW bath truffles
 12 in September 2000); "Redbook" (featuring GLOW chamomile and lavender salt scrub and GLOW
 13 tub truffles in September 2000); "Gourmet" (featuring GLOW mini-bundt cakes and bath truffles
 14 in July 2000); "Lucky" (featuring the GLOW gardenia glowlight votive candle and GLOW bath
 15 truffles in May 2002); "Entertainment Weekly" (featuring GLOW bath and body products in
 16 September 2002, and mentioning this litigation); "W" (featuring GLOW mini-bundt cakes and bath
 17 truffles in March 2001); and "Detour" (featuring GLOW bath and beauty products as newly
 18 available at Bergdorf Goodman in New York).¹³

19 A November 2001 article in the "New York Times Magazine" mentions Glow, Inc.'s store
 20 as "the place for all things lotiony, bathalicious and good smelling, where nothing is made with
 21 chemicals," while a February 2002 edition features GLOW miniature bathtub bundt cakes.¹⁴ None

28 ¹⁴*Id.*, ¶ 9, Ex. C.

1 of this press coverage was purchased advertising.¹⁵

2 Williamson states that a producer from the E! television network approached her in
3 September 2001, and sought permission to use the GLOW mark for a show regarding fashion and
4 beauty to be hosted by defendant Lopez's sister, Lynda Lopez. Williamson gave permission, and
5 GLOW products were featured on one episode of the show.¹⁶ Williamson was also contacted by
6 staff for the daytime drama, "The Young and the Restless," following cast members' positive
7 response to GLOW gift baskets they had received. The show asked that Williamson permit it to
8 call a fictionalized product line including makeup and perfume "Glow by Jabot." Williamson
9 "took this as an honor and compliment of GLOW products," and gave her consent.¹⁷ The storyline
10 began to air in August 2001.¹⁸

11 Entertainment companies frequently ask Glow, Inc. to provide gift baskets to cast and crew
12 members. Williamson asserts that a GLOW gift basket was delivered to defendant Jennifer Lopez
13 in March 2001.¹⁹ The invoice for the delivery indicates that the basket included sandalwood
14 lotion, a sandalwood candle, a "CVP GLOWstick," and a vanilla bath truffle.²⁰

15 **B. The GLOW BY J.LO Product Line And Its Impact**

16 Defendant Jennifer Lopez, also known as J.Lo, is an internationally known singer, dancer,
17 actress and fashion designer.²¹ Defendant Coty, Inc. is one of the world's leading manufacturers

1 and marketers of women's and men's fragrances, cosmetics and skin care products.²² On
2 February 25, 2002, Lopez filed an application to register the trademark GLOW BY J.LO for
3 "fragrances, cosmetics, and skin care products."²³ On March 15, 2002, Coty, through its
4 Lancaster Group division, entered into an exclusive worldwide licensing agreement with Lopez's
5 company, Sweetface Fashion Co., LLC. The agreement contemplates the development and
6 marketing of fragrances and cosmetics under the J.Lo brand, using the Jennifer Lopez name.²⁴
7 Although Lancaster Group issued a press release that day, announcing the agreement, the release
8 did not mention the GLOW BY J.LO mark.²⁵

9 Catherine Walsh, Vice President of Marketing, Cosmetics and American Licenses for the
10 Lancaster Group, states that Coty and Lopez chose the mark GLOW BY J.LO "because Ms. Lopez
11 is known for her lovely glowing skin and her inner 'glow,'" and because "we also like the
12 rhyming element of the phrase."²⁶ Coty announced the launch of the GLOW BY J.LO line in June
13 2002.²⁷ The anchor product is an eau de toilette (diluted perfume) packaged in a stylized bottle.
14 The bottle is intended to represent the shape of "a slightly asymmetrical woman's body." It is
15 draped with a necklace bearing the J.Lo design logo. The GLOW BY J.LO line also includes a skin
16 lotion and a shower gel, both of which are packaged in conventional squeeze tubes featuring the
17 GLOW BY J.LO mark. All three products are sold in white boxes featuring the GLOW BY J.LO
18 mark superimposed over replications of the J.Lo design logo.²⁸ Each product has the same scent,

1 i.e., a blend of orange flower, grapefruit, rose, sandalwood, soft amber, transparent jasmine,
2 vanilla, musk and orris.²⁹

3 GLOW BY J.LO was launched, with extensive media coverage, on June 27, 2002, at a
4 private apartment in the Trump Tower in New York City. The event featured a grand finale in
5 which fireworks over the Hudson River illuminated the GLOW BY J.LO mark.³⁰ Defendants have
6 since initiated an intensive U.S. consumer marketing campaign; their expenditures totaled \$2.1
7 million by July 3, 2002, and are \$5.2 million to date.³¹ The first GLOW BY J.LO products were
8 shipped to stores on June 28, 2002.³² Plaintiff's attorney, Arthur Aaronson, states that he has
9 personally seen numerous advertisements for GLOW BY J.LO products "in magazine[s], [on]
10 billboards, television[,] . . . at shopping malls and on the internet."³³ According to Glow, Inc.'s
11 Williamson, a billboard advertising GLOW BY J.LO products is located approximately one mile
12 from the GLOW retail store.³⁴

13 Williamson first became aware of Lopez's intent to release a perfume, body lotion, and
14 shower gel under the name GLOW BY J.LO in June 2002.³⁵ She then began receiving inquiries
15 from her retail and wholesale customers, who exhibited confusion regarding the relationship
16 between defendants and Glow, Inc. On June 21, 2002, Williamson received a fax from the "NFX
17 Apothecary" in Florida, stating, in pertinent part:

18 "Just a quick note with regard to something we saw in US Weekly – Are you now
19 in 'cahoots' with "J-Lo"??? I am getting ready to order and was going to expand

on your perfume – but – I had no idea you would tie-in with J-Lo – It doesn't seem like your image??? I'm a bit confused? So, I will review future order with you – when I hear the scoop!"

Williamson received another fax from the same party on July 19, 2002, stating in pertinent part: "FYI - I had some customers ask if your line was related to new J-Lo stuff they heard about." Glow, Inc. also proffers notes written by employees in the GLOW retail shop on August 22 and 24, 2002, which state that shop customers asked if there was an affiliation between GLOW and Lopez.³⁶

Williamson has recently been attempting actively to negotiate sales arrangements with department and high visibility stores around the country.³⁷ She has also been involved in funding negotiations with venture capital firms and other investors so that she can expand Glow, Inc.'s presence in the marketplace.³⁸ Williamson asserts that her investor group has put all plans for expansion on hold until this action is resolved.³⁹ She further states that, following the launch of defendants' "GLOW BY J.LO" line "and the media blitz surrounding it," negotiations with major department stores have been tabled, and several potential wholesale customers have advised her "that they will not carry GLOW products until th[e] case is resolved."⁴⁰

C. The Current Litigation

On July 3, 2002, Glow, Inc. attorney Arthur Aaronson sent a letter to Lopez's trademark attorney, Lawrence Apolzon, requesting that Lopez voluntarily cease using the name GLOW in connection with her planned product line.⁴¹ Apolzon's partner, Lisa Pearson, sent Aaronson a

1 letter on July 15, 2002, in which she acknowledged his correspondence and requested further
2 information.⁴² Aaronson replied the same day; he provided a short overview of Glow, Inc.'s use
3 of the GLOW mark, enclosed a press kit, and asked whether Lopez would voluntarily cease using
4 the GLOW BY J.LO mark.⁴³ On July 30, 2002, Aaronson sent a second letter requesting a
5 response.⁴⁴ On July 31, 2002, Pearson answered, asserting that GLOW has been commonly used
6 in the beauty industry and that GLOW and GLOW BY J.LO are readily distinguishable given the
7 "crowded field."⁴⁵ The two attorneys conferred by telephone, but were unable to come to any
8 resolution.⁴⁶ Pearson contends she has told Aaronson on several occasions that her clients are
9 open to discussing "commercially reasonable measures that could be taken to allay plaintiff's
10 concerns."⁴⁷ When this subject was raised during counsels' August 2002 telephone calls,
11 Aaronson stated his impression that the GLOW BY J.LO line was going to be launched within a few
12 days. Pearson told him it would not be launched that soon.⁴⁸

13 On August 7, 2002, Glow, Inc. filed suit against Coty and Lopez, alleging federal claims
14 for trademark infringement, trademark infringement – reverse confusion, trademark dilution, false
15 designation of origin, and Lanham Act unfair competition. The complaint additionally pleaded
16 state law claims for trademark infringement, reverse confusion, dilution, unfair competition, and
17 an accounting.⁴⁹ Once Aaronson ascertained that GLOW BY J.LO products were being advertised

26 Pearson).

27 ⁴⁹Aaronson Decl., ¶ 11; Complaint.

1 and sold nationwide, he wrote Pearson on September 9, 2002, requesting verification that the
2 advertising and sales had been authorized by defendants.⁵⁰ On September 13, 2002, Pearson
3 responded that defendants would not postpone the GLOW BY J.LO launch as a result of Glow,
4 Inc.'s lawsuit.⁵¹ On September 24, 2002, Glow, Inc. filed a motion for a preliminary injunction,
5 requesting that the court enjoin defendants' use of the GLOW mark.

6 Defendants filed an answer and counterclaims for trademark infringement, Lanham Act
7 unfair competition, and California statutory unfair competition on October 8, 2002. The
8 counterclaims are based on Lopez's acquisition by assignment on September 26, 2002, of all
9 rights to and interest in the registered trademark GLOW KIT.

10 Defendants proffer evidence that they have taken steps to reduce any likelihood of
11 confusion resulting from the similarity of the parties' marks and product lines. Specifically, they
12 assert that advertising for GLOW BY J. LO has featured "photographs of Ms. Lopez next to the
13 GLOW BY J. LO eau de toilette bottle, in an effort to create a visual link between her physical
14 profile and the shape of the bottle."⁵² They also note that, "in a good faith effort to allay
15 plaintiff's expressed concerns, [they have] instituted guidelines for GLOW BY J. LO advertising to
16 exhibit the GLOW BY J. LO mark in a font of uniform size and color."⁵³ Plaintiff counters that
17 defendants' current advertisements do not follow these guidelines, because (1) the typeface of
18 advertisements is the same as that which was used in advertisements running at the time the action
19 was filed, and (2) the image of Jennifer Lopez is absent from several print and television
20 advertisements for GLOW BY J. LO.⁵⁴ Indeed, a GLOW BY J. LO television commercial proffered
21 as evidence by plaintiff focuses visually on the term GLOW, and repeats the word verbally multiple

1 times before stating the full name of the product, GLOW BY J.LO.⁵⁵

2 **D. Glow, Inc.'s Pending Trademark Application**

3 Glow, Inc. attorney Aaronson submitted an application to register the GLOW trademark in
4 April 1999.⁵⁶ Defendants' attorney Lisa Pearson states:

5 "A review of the file wrapper for this application discloses that in an Office Action
6 mailed November 18, 1999. . . , the Examining Attorney refused registration
7 'because the applicant's mark when used on or in connection with the identified
8 goods, so resembles the marks in U.S. Registration Nos. 1,099,151 [the mark
9 ULTRA GLOW for 'skin moisturizing creme and stick'], 1,973,583 [the mark ULTRA
10 GLOW for 'cosmetic products, namely soaps, toilet soaps, bar soaps, liquid soaps,
11 liquid toilet soaps, essential oils, skin care preparations, creams, cosmetic facial
12 creams, skin tone creams, skin lotions, moisturizers, cocoa butter creams and
13 sticks, beauty bars, and facial scrubs'] and 2,288,023 [the mark GLOW KIT for
14 'cosmetics sold separately and as a kit, namely, alpha hydroxy acid skin creams,
15 facial cleansing lotions, and skin creams containing vitamin A derivatives']."⁵⁷

16 Aaronson responded to this office action in January 2000, arguing that ULTRA GLOW was not
17 confusingly similar to GLOW because "ULTRA" was not disclaimed, and therefore constituted an
18 integral part of the registered mark. He further noted that ULTRA GLOW was not registered for
19 use in connection with candles.⁵⁸ Aaronson also contends that he resolved the objection respecting
20 the GLOW KIT mark during a telephone conversation with the trademark examiner. He maintains
21 that GLOW KIT is "distinguishable in look, sound, and spelling" from GLOW, and that it is "used
22 only locally by a physician for a medical alpha-hydroxy skin preparation [that] has nothing to do

24
25 ⁵⁵Williamson Reply Decl., ¶ 16, Ex. T.

28 ⁵⁸*Id.*, ¶ 5, Ex. 49 at 23-24.

1 with fragrances.”⁵⁹ Pearson counters that an examining attorney will typically “make[] a notation
 2 ‘W/D’ followed by his initials in the margin of the Office Action” if and when he withdraws a
 3 blocking citation. She points out that no such notation was made on the office action regarding
 4 the ULTRA GLOW and GLOW KIT marks.⁶⁰

5 In his January 2000 letter to the Patent and Trademark Office, Aaronson amended the
 6 description of goods in the trademark application, substituting “skin soaps,” for “soaps,” and
 7 “skin moisturizers” for “moisturizers.”⁶¹ On April 6, 2000, the examiner accepted this proposed
 8 amendment, but suspended further action on the application pending action on Application Serial
 9 No. 75/515,208, which concerns the mark SUN GLOW for “skin care preparations, namely,
 10 lotions, moisturizers, creams, toners, exfoliators, astringents, cleansers, masks, soaps, lip balms,
 11 scrubs, sun screens, sun tanning gels, sun cream, sun lotions and conditioners.”⁶² Glow, Inc.’s
 12 application for publication was finally approved on August 18, 2002, after the PTO deemed the
 13 SUN GLOW mark abandoned.⁶³

14 In September 2002, after this action had been filed, defendants’ attorney submitted a letter
 15 of protest to the PTO on Jennifer Lopez’s behalf. The letter identified several purported
 16 “irregularities in the processing” of the GLOW application, namely that: (1) the November 18,
 17 1999, block placed on the application had apparently not been removed and (2) Glow, Inc.’s
 18 January 2000 response letter did not address the examiner’s objection regarding the GLOW KIT
 19 mark.⁶⁴ On September 26, 2002, Leone A. Giulio, the owner of the GLOW KIT mark, Reg. No.

27 ⁶⁴Pearson Decl., ¶ 8, Ex. 50.

1 2,288,023, assigned all of his right, title and interest in the mark to Jennifer Lopez.⁶⁵

2 The GLOW trademark was published for opposition in the Official Gazette on November
3 5, 2002.⁶⁶ Defendants assert they will oppose the application, in order to reassert their earlier
4 protest regarding “irregularities in processing,” and to make new arguments regarding possible
5 infringement of the GLOW KIT mark. The latter issue is the subject of Lopez’s counterclaims in
6 this action.⁶⁷ It is the PTO’s practice to suspend internal proceedings, including opposition
7 proceedings, during the pendency of trademark infringement litigation involving the competing
8 marks.⁶⁸ For this reason, Pearson asserts that Glow, Inc.’s application will likely be suspended,
9 and that the GLOW mark will not be registered until there is a final adjudication of defendants’
10 counterclaims in this action.⁶⁹

11 **E. Other Products Using GLOW As A Trademark Or Trade Name**

12 There are many registered trademarks for beauty products that incorporate “glow” or
13 variants thereof.⁷⁰ These include marks for several make-up and hair care products, i.e.,
14 (1) RADIANT GLO, issued in February 1984 for “liquid facial makeup and hair shampoo;”⁷¹
15 (2) FLAME GLOW, issued in January 1985 for “lip polish, blushers, blushing kit comprising blush
16 and blusher palettes, eyeliner, eye shadow, and eye shadow kits comprising applicator and eye

2 There are also several registered marks using "glow" or a variant thereof in connection
3 with candles and fragrances, including: (1) THE AFTER GLOW, issued in August 1996 for "scented
4 fragrances or perfumes which may be sprayed on beds, bedroom furniture, pajamas, towels and
5 bedclothes;"⁸⁷ (2) AGLOW, previously discussed; (3) GLOWING ART, issued in November 2000
6 with a first use in commerce of June 1996 for "candles, scented candles and gel candles;"⁸⁸ and
7 (4) DISCO GLOW, issued in November 2000 with a first use in commerce of October 1999 for
8 "cosmetics, namely lipstick, nail polish, and fragrances, namely perfume and cologne."⁸⁹

II. DISCUSSION

A. Standard Governing Injunctive Relief

In deciding whether to issue a preliminary injunction, the court must consider: (1) the likelihood of the moving party's success on the merits; (2) the possibility of irreparable injury to the moving party if relief is not granted; (3) the extent to which the balance of hardships tips in favor of one party or the other; and in certain cases (4) whether the public interest will be advanced by granting preliminary relief. *Miller v. California Pacific Med. Ctr.*, 19 F.3d 449, 456 (9th Cir. 1994). See also *Mayweathers v. Newland*, 258 F.3d 930, 938 (9th Cir. 2001) ("... the traditional equitable criteria for granting a preliminary injunction . . . are '(1) a strong likelihood of success on the merits; (2) the possibility of irreparable injury to the plaintiffs if injunctive relief is not granted; (3) a balance of hardships favoring the plaintiffs; and (4) advancement of the public interest'"). The court may issue a preliminary injunction if the moving party establishes either (1) a combination of probable success on the merits and the possibility of irreparable harm,

⁸⁶*Id.*, ¶ 30, Ex. 71 (Reg. No. 2,403,365).

⁸⁷*Id.*, ¶ 25, Ex. 66 (Reg. No. 1,997,207).

⁸⁸*Id.*, ¶ 31, Ex. 72 (Reg. No. 2,404,139).

⁸⁹*Id.*, ¶ 32, Ex. 73 (Reg. No. 2,406,426).

1 or (2) the existence of serious questions going to the merits, a demonstration that there is at least
2 a fair chance the movant will prevail, and a balance of hardships that tips sharply in the movant's
3 favor. *Textile Unlimited, Inc. v. A.BMH & Co., Inc.*, 240 F.3d 781, 786 (9th Cir.2001); *Miller*,
4 *supra*, 19 F.3d at 456. "These two formulations represent two points on a sliding scale in which
5 the required degree of irreparable harm increases as the probability of success decreases." *Miller*,
6 *supra*, 19 F.3d at 456. See also *Tillamook County v. U.S. Army Corps of Engineers*, 288 F.3d
7 1140, 1143 (9th Cir. 2002) ("To obtain preliminary injunctive relief, the movant must show: (1) a
8 probability of success on the merits combined with a possibility of irreparable harm if the relief
9 is denied; or (2) serious questions are raised and the balance of hardships tips sharply in the
10 movant's favor. These are not alternative tests but, instead, are extremes of a single continuum").

11 **B. Glow, Inc.'s Likelihood Of Success On The Merits Of Its Trademark**
12 **Infringement And Unfair Competition Claims**

13 Glow, Inc. pleads claims for trademark infringement, trademark dilution, and Lanham Act
14 unfair competition, as well as state statutory and common law claims. Because the parties'
15 briefing focuses exclusively on Lanham Act trademark infringement and unfair competition, the
16 court has confined its analysis to these claims.⁹⁰

17

18 ⁹⁰Glow Inc. bases its request for a preliminary injunction on "its claim under Section
19 43(a)(1) of the Lanham Act." (Memorandum of Points and Authorities in Support of Motion for
20 a Preliminary Injunction ("Pl.'s Mot.") at 6.) Both Glow, Inc. and defendants address trademark
21 infringement rather than trademark dilution in their briefs. The standard for Lanham Act unfair
22 competition is the same as that for Lanham Act trademark infringement. See *Brookfield*
23 *Communications, Inc. v. West Coast Entertainment Corp.*, 174 F.3d 1036, 1045 (9th Cir. 1999)
24 ("To establish a trademark infringement claim under section 32 of the Lanham Act or an unfair
25 competition claim under section 43(a) of the Lanham Act, Brookfield must establish that West
Coast is using a mark confusingly similar to a valid, protectable trademark of Brookfield's");
Kendall-Jackson Winery, Ltd. v. E. & J. Gallo Winery, 150 F.3d 1042, 1046 (9th Cir. 1998)
("Section 43(a) now protects both trademarks and trade dress from infringement"). Additionally,
the elements of state claims for trademark infringement and unfair competition are substantially
similar to those of the comparable federal claims. See *Entrepreneur Media, Inc. v. Smith*, 279
F.3d 1135, 1153 (9th Cir. 2002) ("... 'actions pursuant to . . . § 17200 are "substantially
congruent" to claims made under the Lanham Act,'" quoting *Cleary v. News Corp.*, 30 F.3d
1255, 1263 (9th Cir. 1994); *U.S.A., Inc. v. Toys "R" Us, Inc.*, 84 F.3d 1143, 1152 (9th Cir.
1996) ("... since dismissal of Denbicare's Lanham Act claim was proper, dismissal of its §

1 The purpose of trademark is to aid the “[i]dentification of the manufacturer or sponsor of
 2 a good or the provider of a service.” *New Kids on the Block v. News America Publishing, Inc.*,
 3 971 F.2d 302, 305 (9th Cir. 1992). Trademarks represent “a limited property right in a particular
 4 word, phrase, or symbol.” *Id.* at 306. To find that defendants have infringed Glow, Inc.’s mark
 5 the court will have to find that Glow, Inc. has a valid protectable trademark and that defendants’
 6 use of the same or a similar mark causes a likelihood of confusion in the minds of the relevant
 7 consuming public. See 15 U.S.C. § 1114(1)(a); *Fuddruckers, Inc. v. Doc’s B.R. Others, Inc.*,
 8 826 F.2d 837, 841 (9th Cir. 1987); *First Brands Corp. v. Fred Meyer, Inc.*, 809 F.2d 1378, 1381
 9 (9th Cir. 1987).

10 Glow, Inc. argues that defendants’ infringement in this case takes the form of “reverse
 11 confusion,” i.e., that defendants have “so saturate[d] the market with promotion of [their]
 12 trademark that consumers come to believe that the infringer, rather than the plaintiff, is the source
 13 of the trademarked product.” *Murray v. Cable National Broadcasting Co.*, 86 F.3d 858, 861 (9th
 14 Cir.1996). See also *Dreamwerks Production Group, Inc. v. SKG Studio, d/b/a Dreamworks*
 15 *SKG*, 142 F.3d 1127, 1130 (9th Cir.1998) (“The question in such cases is whether consumers
 16 doing business with the senior user might mistakenly believe that they are dealing with the junior
 17 user. More specifically, the question here is whether a reasonable consumer attending a
 18 Dreamwerks-sponsored convention might do so believing it is a convention sponsored by
 19 DreamWorks”).

20 **1. Protectability**

21 **(i) Presumption Of Ownership And Right To Use**

22 Under 15 U.S.C. § 1115(a), a valid federal trademark registration constitutes *prima facie*
 23 evidence that the holder owns the mark, and has the exclusive right to use the mark in commerce
 24 in connection with the goods or services specified in the registration. See *Brookfield*
 25 *Communications, supra*, 174 F.3d at 1046-47 (in determining likelihood of success on a motion
 26 for preliminary injunction, the court “first determine[d] whether Brookfield ha[d] a valid,

27
 28 17200 claim was proper as well”).

1 protectable trademark interest in the ‘MovieBuff’ mark,” and held that “Brookfield’s registration
 2 of the mark on the Principal Register in the Patent and Trademark Office constitute[d] *prima facie*
 3 evidence of the validity of the registered mark and of Brookfield’s exclusive right to use the mark
 4 on the goods and services specified in the registration”). See also *Maktab Tarighe Oveyssi Shah*
 5 *Maghsoudi, Inc. v. Kianfar*, 179 F.3d 1244, 1249 (9th Cir. 1999) (“This registration constitutes
 6 *prima facie* evidence that Angha owns the marks. . . . It also provides constructive notice of the
 7 claimed ownership of the marks”).

8 While Glow, Inc. asserts that registration of its mark is imminent, it does not presently
 9 own a federal trademark registration, and registration is not guaranteed. Thus, it may not avail
 10 itself of the statutory presumption that it owns and has the right to use the GLOW mark in
 11 commerce in connection with specified categories of goods. See *Dalton Enterprises, Inc. v.*
 12 *Copeland Coating Co., Inc.*, No. 90-CV-320, 1991 WL 117698, * 14 (N.D.N.Y. June 18, 1991)
 13 (“a mark for which a notice of allowance is issued does not become a registered trademark until
 14 this process is completed. This includes a final examination by the PTO of the validity of the
 15 mark. There is no evidence in the record that this has been done for LATEX PLUS, and certainly
 16 no certificate of registration has been issued. Accordingly, LATEX PLUS is not entitled to the
 17 presumption of validity a registered trademark carries”).⁹¹

18 (ii) Common Law Trademark Rights

19 In the absence of presumed ownership, Glow, Inc. must establish that it has protectable
 20 rights in the GLOW mark. Potential trademarks fall into four categories: (1) generic,
 21 (2) descriptive, (3) suggestive, and (4) arbitrary or fanciful. *Japan Telecom, Inc. v. Japan*
 22 *Telecom Am. Inc.*, 287 F.3d 866, 872 (9th Cir. 2002); *Filipino Yellow Pages, Inc. v. AsianThe*

23
 24 ⁹¹The presumption of validity extends only to “the goods or services specified in the
 25 registration.” See 15 U.S.C. § 1115(a); *Levi Strauss & Co. v. Blue Bell, Inc.*, 778 F.2d 1352,
 26 1354 (9th Cir. 1985) (en banc). Glow, Inc.’s trademark application seeks to register the GLOW
 27 mark in connection with “skin soaps, bubble bath, skin lotions, skin moisturizers, and candles.”
 28 (See Williamson Decl., Ex. B.) Even had its application been approved and its mark registered,
 therefore, Glow, Inc. would not be able to invoke the presumption of trademark validity as
 respects use of the mark in connection with perfume or fragrance products.

1 *Journal Publs., Inc.*, 198 F.3d 1143, 1146 (9th Cir. 1999). To establish a protectable trademark,
 2 Glow, Inc. must prove either (1) that its mark is inherently distinctive or (2) that the mark has
 3 acquired secondary meaning associated with Glow, Inc.'s business. See *Disc Golf Association,*
 4 *Inc. v. Champion Discs, Inc.*, 158 F.3d 1002, 1005 (9th Cir. 1998) ("To recover for the
 5 infringement of a trademark . . . under section 43(a) of the Lanham Act, [plaintiff] had to prove
 6 [*inter alia*] that . . . the [mark] is inherently distinctive or acquired distinctiveness through a
 7 secondary meaning"); *Kendall-Jackson*, *supra*, 150 F.3d at 1047 ("[a]n identifying mark is
 8 distinctive and is capable of being protected if it either (1) is inherently distinctive or (2) has
 9 acquired distinctiveness through secondary meaning" (quoting *Two Pesos*, *supra*, 505 U.S. at
 10 769)).

11 Generic terms cannot be protected as trademarks because "they are common words or
 12 phrases that 'describe a class of goods rather than an individual product,'" and thus do not relate
 13 exclusively to the trademark owner's product. *Japan Telecom*, *supra*, 287 F.3d at 872 (citing
 14 *New Kids on the Block*, *supra*, 971 F.2d at 306). Descriptive terms "suffer from the same
 15 problem." *Id.* Descriptive terms relate more directly to a particular product than do generic
 16 terms, as they "describe[] a person, a place or an attribute of [the] product." They will not
 17 support the grant of an exclusive property right, however, "[b]ecause they tend to consist of
 18 common words that might be the only way to describe a category of goods." *Id.* See also
 19 *Kendall-Jackson Winery*, *supra*, 150 F.3d at 1047, n. 8 ("Descriptive marks define qualities or
 20 characteristics of a product in a straightforward way that requires no exercise of the imagination
 21 to be understood").

22 Terms that are suggestive, or arbitrary and fanciful, by contrast, are inherently distinctive,
 23 and protectable as trademarks. *Japan Telecom*, *supra*, 287 F.3d at 872 (noting that such terms
 24 are protectable "without a showing of secondary meaning"). A suggestive mark "conveys an
 25 impression of a good but requires the exercise of some imagination and perception to reach a
 26 conclusion as to the product's nature." *Brookfield Communications*, *supra*, 174 F.3d at 1058, n.
 27 19 (using "Roach Motel" insect traps as an example). See also *Kendall-Jackson Winery*, *supra*,
 28 150 F.3d at 1047, n. 8 (a suggestive mark is one for which "a consumer must use imagination or

any type of multistage reasoning to understand the mark's significance, [because] the mark does not *describe* the product's features, but *suggests them*" (emphasis original)). Arbitrary and fanciful marks "have no intrinsic connection to the product with which the mark is used; [arbitrary marks] consist[] of words commonly used in the English language [e.g. 'Black & White' scotch whiskey], whereas [fanciful marks] are wholly made-up terms [e.g. 'Clorox' bleach]." *Brookfield Communications, supra*, 174 F.3d at 1058, n. 19 (citations omitted).

Defendants argue that GLOW is generic, or at best descriptive. Glow, Inc. argues it is suggestive. To determine which of these positions is correct, the court must examine "the imaginativeness involved in the suggestion, that is, how immediate and direct is the thought process from the mark to the particular product. If the mental leap between the word and the product's attribute is not almost instantaneous, this strongly indicates suggestiveness, not direct descriptiveness." *Japan Telecom, supra*, 287 F.3d at 873 (citing *Self-Realization Fellowship Church v. Ananda Church of Self-Realization*, 59 F.3d 902, 911 (9th Cir.1995)).

Defendants contend that GLOW is an adjective "commonly used to describe the nature, shade, flavor, color or variety of various beauty products and the benefit to be achieved by their use."⁹² Williamson counters that the GLOW mark was chosen primarily because of "the positive feeling the word evokes."⁹³ The mark is used differently in packaging and advertising Glow, Inc.'s fragrance, shower gel, and body lotion products. Accordingly, the court will consider the distinctiveness of the mark with respect to each product individually. See *Abercrombie & Fitch Co. v. Hunting World, Inc.*, 537 F.2d 4, 11-12 (2d Cir. 1976) (invalidating Abercrombie & Fitch's SAFARI trademark on clothing and hats, but not on boots or shoes, the court noted that "[t]he word 'Safari' has become part of a family of generic terms which . . . have come to be understood . . . as terms within the language referring to contemporary American fashion apparel. These terms name the components of the safari outfit well known to the clothing industry and its customers: the 'Safari hat,' . . . the 'Safari jacket,' . . . [and] the 'Safari suit.' . . . A&F stands

⁹²Def.'s Opp. at 9:12-16.

⁹³Williamson Reply Decl., ¶ 4.

1 on stronger ground with respect to HW's use of 'Camel Safari,' 'Hippo Safari' and Chukka
2 'Safari' as names for boots imported from Africa. As already indicated, there is no evidence that
3 'Safari' has become a generic term for boots"). See also *Paddington Corp. v. Attiki Importers*
4 & Distributors

5 , 996 F.2d 577, 583 (2d Cir. 1993) ("In classifying a trademark according to the
6 *Abercrombie* test, a court examines the context in which the words constituting the mark are used.
7 As one commentator explained, 'the word 'apple' would be arbitrary when used on personal
8 computers, suggestive when used in 'Apple-A-Day' on vitamin tablets, descriptive when used in
9 'Tomapple' for combination tomato-apple juice and generic when used on apples"); *Dowbrands*,
10 *L.P. v. Helene Curtis, Inc.*, 863 F. Supp. 963, 968 (D. Minn. 1994) ("A term that is in one
11 category for a particular product may be in a different category for another; thus 'Ivory' may be
12 a fanciful term when referring to soap but be generic or descriptive when referring to another
product").

(a) GLOW Perfume

With respect to Glow, Inc.’s perfume, the GLOW mark clearly appears to be suggestive rather than descriptive because “a consumer must use more than a small amount of imagination to make the association.” *Rodeo Collection, Ltd. v. West Seventh*, 812 F.2d 1215, 1218 (9th Cir. 1987). The mark does not directly describe the attributes of Glow, Inc.’s perfume. Indeed, words other than the GLOW mark are used on the packaging to convey the fact that the perfume is a sandalwood scent.⁹⁴ The mark thus appears to refer suggestively to the positive feeling one will achieve by using the product. See *Giorgio Beverly Hills, Inc. v. Revlon Consumer Products Corp.*, 869 F. Supp. 176, 180 (S.D.N.Y. 1994) (“The mark ‘RED’ invites the consumer to employ a bit of perception, thought, and imagination, to reach the conclusion that Giorgio’s fragrance is romantic, passionate, and sexy, and/or that the consumer will elicit the corresponding emotions from others when wearing the fragrance”); *Elizabeth Taylor Cosmetics Co. v. Annick Goutal, S.A.R.L.*, 673 F. Supp. 1238, 1243-44 (S.D.N.Y. 1987) (“Although the word ‘passion’ may be used frequently in fragrance advertising copy, it is not a descriptive term. Instead of

⁹⁴Walsh Decl., Ex. 48.

describing the product, it describes an emotion the fragrance seeks to induce. Connecting the emotion to the fragrance requires ‘an effort of the imagination’”); *Patou, Inc. v. Jacqueline Cochran, Inc.*, 201 F. Supp. 861, 864 (S.D.N.Y. 1962) (“There are two extremes in the choice of a mark. A product may have a fanciful name, or at the other extreme, a name which is primarily descriptive. In between there exists a large middle ground of names, which while providing some description of the product, nevertheless demand an effort of the imagination to be understood as descriptive. These names must be taken in a suggestive or figurative sense. JOY[, as used for perfume,] stands in this middle ground”). See also *Charles of the Ritz Group, Ltd. v. Marcon, Ltd.*, 635 F. Supp. 158, 161 (S.D.N.Y. 1986) (noting that “[t]he word ‘silk’ has been widely adopted and used in the cosmetics industry,” and that it “conjures up the image of something that is soft and smooth and lustrous. It is frequently used in connection with cosmetics or toiletries to suggest that the relevant product has the qualities of silk. The word, for example, may suggest that eyeshadow will look as soft as silk, or lipstick will shine like silk. The word is also used to suggest the desirable result the product will achieve for the consumer, i.e., that use of the product will cause the consumer to have soft hair or smooth skin, or shiny fingernails”).

(b) GLOW Shower Gel And Body Lotion

The manner in which the GLOW mark is used on Glow, Inc.’s shower gel and body lotion is arguably more descriptive, in that it conveys that use of the products will create glowing skin. The products are called, respectively, “Wash and GLOW” “Body GLOW.”⁹⁵ In addition to a

⁹⁵“Wash and GLOW” and “Body GLOW” are not marks Glow, Inc. seeks to protect through this litigation. Rather, it attempts asserts only that defendants have infringed the GLOW mark that is featured independently at the top of each product label. When a court must assess the validity of a housemark in combination with a product mark, the protectability of each must be assessed separately. See *Texicon, Inc. v. Cardinal Eng’g Corp.*, 164 U.S.P.Q. 397, 399, 1969 WL 8396 (T.T.A.B.1969) (holding that the product name ZIP was a protectable trademark “whether alone or in association with” plaintiff’s separate housemark, the court observed that “. . . there is no statutory limitation on the number of trademarks that one may use on or in connection with a particular product to indicate origin thereof in commerce. . . . Thus, it has been frequently held that the mere use of a house or primary mark for one’s goods does not preclude the adoption and use of a product mark in connection therewith. . . . [J]udicial notice may be taken of the fact that it is a common practice for manufacturers to apply both a house mark and a product mark to their

1 product name that incorporates GLOW, the label for each product features the GLOW mark
 2 displayed in a format that is identical to that found on the perfume label. Glow, Inc.'s product
 3 catalog indicates that the body lotion "softens your skin and adds a healthy glow."⁹⁶

4 While the product names "Wash and GLOW" and "Body GLOW" tend to describe the
 5 shower gel and body lotion, the court concludes that Glow, Inc. will ultimately be able to
 6 demonstrate that its primary mark GLOW is not wholly descriptive as used in connection with
 7 these products, since at least a small amount of imagination is required to connect the mark to the
 8 products it represents. "Glow" is not descriptive of the qualities or characteristics of shower gels
 9 or body lotions. Indeed, one who hears the word does not immediately think of such products.
 10 Rather, some amount of association is required to link the concept of glowing skin to use of a
 11 particular gel or lotion. See *Rodeo Collection, supra*, 812 F.2d at 1219 ("A person would not
 12 be likely to picture a shopping center upon first hearing the name 'Rodeo Collection.' One must
 13 use some imagination to associate the word 'collection' with the collection of shops and
 14 restaurants that make up the shopping center. The remoteness of that association indicates that
 15 a competing shopping center would not need to use the term 'collection' in order to identify its
 16 own shopping center"). Compare *Hanig & Co., Inc. v. Fisher & Co., Inc.*, No. 92 C 1779, 1994
 17 WL 97758, * 3 (N.D. Ill. Mar. 24, 1994) ("[W]hen a manufacturer puts a descriptive term such
 18 as 'Bright-Glow' on its light bulbs the customer is uncertain whether these words are being used
 19 as a designation of origin or merely a description – a claim that the bulbs glow brightly. Thus

20
 21 various items of merchandise. However, whether or not a particular designation used on a
 22 product along with a housemark possesses a separate trademark significance depends on the
 23 manner in which it is used and the commercial impression engendered as a result of such use").

24 ⁹⁶Williamson Decl., Ex. A ("GLOW to-Go" product catalog for summer 2002). Glow, Inc.
 25 has used the mark in the same descriptive fashion in the names of other GLOW products,
 26 including: (1) "Shave and GLOW" shave lotion; (2) "GLOWstick" lip balm; (3) "GLOWlight"
 27 scented candles; and (4) the "Get-Well-and-GLOW" gift box. Glow, Inc. has also incorporated
 28 the mark into product names that are less clearly descriptive, i.e., (1)"GLOW cakes," which are
 "bath fizzies" shaped like miniature bundt cakes; (2) "GLOW therapy soaps;" (3) "GLOW spa bath
 treatments;" (4) "GLOW spa facial masks;" (5) "GLOW eye pillows;" and (6) "GLOW ducks,"
 which are rubber duckies for the bath.

1 it is not presumed that the public recognizes and associates a descriptive mark with a plaintiff's
2 products or services") with *Standard International Corp. v. American Sponge and Chamois Co.,*
3 Inc., 394 F.2d 599, 600 (C.C.P.A. 1968) (concluding the "Glow," as used in DUST 'N GLOW,
4 was "suggestive of the effect of using a wax polish upon furniture"); *Sears Robuck & Co. v.*
5 *Haymer*, 263 F.2d 348, 349 (C.C.P.A. 1959) (noting, with respect to competing marks GLO-RAY
6 and GLOW for hairdressing products that, "while the hyphenation of appellee's mark sets 'GLO'
7 apart and probably gives a suggestion of glowing, . . . the primary impression created by the
8 mark as a whole is that of glory, or a shining ray. Moreover, the word 'GLOW' as associated with
9 preparations designed to be applied to the hair does not appear to be arbitrary, but rather suggests
10 that a desirable result will be obtained when used" (emphasis added)). See also *Jean Patou*,
11 *supra*, 201 F. Supp. at 10 ("The defendant's use of the word 'joy' in JOY OF BATHING . . . is used
12 to evoke a certain emotion on the part of the prospective purchaser. The use of the phrase JOY
13 OF BATHING is designed to suggest the pleasure which will accompany the use of defendant's
14 product in one's bath").

15 For purposes of the present motion, therefore, the court finds that Glow, Inc. will likely
16 be able to prove that GLOW is a suggestive mark when used in connection with its perfume,
17 shower gel, and body lotion products, and that it will likely not be required to prove that the mark
18 has acquired secondary meaning in order to secure protection under the Lanham Act.

(iii) Whether Glow, Inc. Is The Senior User Of The GLOW Mark

Because neither party presently holds a registration for GLOW, neither can take advantage of the presumption of protectability provided by trademark registration. Glow, Inc. thus must establish that it is the senior user of GLOW in connection with perfume, shower gel, and body lotion before it can prevail in its infringement action.

Priority for purposes of trademark law is established by commercial usage. See *Sengoku Works Ltd. v. RMC Int'l, Ltd.*, 96 F.3d 1217, 1219 (9th Cir. 1996) (“It is axiomatic in trademark law that the standard test of ownership is priority of use. To acquire ownership of a trademark it is not enough to have invented the mark first or even to have registered it first; the party claiming ownership must have been the first to actually use the mark in the sale of goods or

1 services"). "The first to use a mark is deemed the 'senior' user and has the right to enjoin
 2 "junior" users from using confusingly similar marks in the same industry and market or within
 3 the senior user's natural zone of expansion." *Brookfield Communications, supra*, 174 F.3d at
 4 1046. See also *Union Nat'l Bank of Tex., Laredo, Tex. v. Union Nat'l Bank of Tex., Austin, Tex.*, 909 F.2d 839, 842-43 (5th Cir. 1990); *Tally-Ho, Inc. v. Coast Community College District*,
 5 889 F.2d 1018, 1023 (11th Cir. 1989); *New West Corp. v. NYM Co. of Cal.*, 595 F.2d 1194,
 6 1200-01 (9th Cir. 1979).

7 Use of the mark must be "sufficiently public" that the marked goods are "identif[ied] or
 8 distinguish[ed] . . . in an appropriate segment of the public mind as those of [the adopter of the
 9 mark]." *Johnny Blastoff, Inc. v. Los Angeles Rams Football Co.*, 188 F.3d 427, 433-34 (7th Cir.
 10 1999) (quoting *New West Corp. v. NYM Co. of Cal., Inc.*, 595 F.2d 1194, 1200 (9th Cir. 1979)).
 11 To established that the public identifies the mark with a particular product source, the fact-finder
 12 may rely on its use in "'advertising brochures, catalogs, newspaper ads, and articles in
 13 newspapers and trade publications,' as well as in media outlets such as television and radio." *Id.*
 14 at 434 (citations omitted). See also *Communications Satellite Corp. v. Comsat, Inc.*, 429 F.2d
 15 1245 1248-49 (4th Cir. 1970) (holding that plaintiff's promotion and use of the distinctive mark
 16 "Comsat" as an abbreviation for its company, together with frequent references to the company
 17 by the Comsat name in magazines and newspapers, was sufficient to support a finding that the
 18 name was a strong and protectable mark).

19 The evidence shows that Glow, Inc. began selling its perfume, shower gel, and body lotion
 20 under the GLOW mark prior to the time Coty and Lopez began to sell GLOW BY J.LO products.
 21 Glow, Inc. founder Williamson states that the company first used the mark in commerce on
 22 February 28, 1999. Its federal trademark application was filed on April 29, 1999, and sought
 23 registration of the mark, *inter alia*, in connection with the sale of skin soaps, lotions, and
 24 moisturizers.⁹⁷ While the record contains no specific evidence as to when Glow, Inc.'s shower
 25 gel and body lotion were first sold, the lotion was featured in Los Angeles Magazine in July 2000,
 26

27
 28 ⁹⁷*Id.*, ¶¶ 4-5, Ex. B.

1 and the lotion and shower gel were showcased in InStyle magazine in May 2001.⁹⁸ Williamson
 2 states that GLOW perfume was sold under the mark at the company's retail store in 2000, and
 3 launched on a national scale in 2001.⁹⁹ The launch of the GLOW BY J.LO product line, by
 4 contrast, did not occur until June 2002.¹⁰⁰ The court thus concludes that, considered in isolation,
 5 Glow, Inc. will likely be able to demonstrate that it commenced its commercial use of the GLOW
 6 mark before defendants entered the market with their GLOW BY J.LO mark.

7 Defendants argue, however, that Lopez's recent acquisition of the GLOW KIT mark makes
 8 her the senior user. GLOW KIT mark is a registered federal trademark, published on July 7, 1999,
 9 for use in connection with "[c]osmetics sold separately and as a kit, namely, alpha hydroxy acid
 10 creams, facial cleansing lotions, and skin creams containing vitamin A derivatives."¹⁰¹ The GLOW
 11 KIT mark is not registered for use in connection with shower gels or fragrances, and thus could
 12 not affect priority of use as respects those products.

13 Based on the limited record before it, the court concludes that defendants may well be able
 14 to establish that the GLOW KIT mark was validly assigned to Lopez. The assignment recites that
 15 both the mark and the goodwill associated with it are being transferred to Lopez.¹⁰² See 15
 16 U.S.C. § 1060 ("A registered mark or a mark for which an application to register has been filed
 17 shall be assignable *with the good will of the business in which the mark is used*, or with that part
 18 of the good will of the business connected with the use of and symbolized by the mark" (emphasis
 19 added)); *Sugar Busters LLC v. Brennan*, 177 F.3d 258, 265 (5th Cir. 1999) ("a trademark cannot
 20 be sold or assigned apart from the goodwill it symbolizes"); *E. & J. Gallo Winery v. Gallo Cattle*
 21 Co., 967 F.2d 1280, 1289 (9th Cir. 1992) ("the goodwill of the business . . . must accompany

22
 23 ⁹⁸*Id.*, ¶ 9.
 24

25 ⁹⁹Williamson Reply Decl., ¶ 9.
 26

27 ¹⁰⁰Walsh Decl., ¶ 7.
 28

29 ¹⁰¹Pearson Decl., Ex. 52.
 30

31 ¹⁰²*Id.*, Ex. 53.
 32

1 the mark"). While the assignor will continue to use the mark as the result of a licensing
 2 arrangement,¹⁰³ the Ninth Circuit has held that such "assignment and license-back" agreements
 3 can be valid transfers of a mark and the goodwill associated with it. See *E. & J. Gallo, supra*,
 4 967 F.2d at 1290 ("[A] simultaneous assignment and license-back of a mark is valid, where, as
 5 in this case, it does not disrupt continuity of the products or services associated with a given
 6 mark").

7 The fact that the assignment appears to have been motivated primarily by defendants' desire to secure priority over Glow, Inc. does not detract from the validity of the assignment. See
 8 *Carnival Brand Seafood Co. v. Carnival Brands, Inc.*, 187 F.3d 1307, 1309 (11th Cir. 1999)
 9 (holding that an assignment to achieve priority over a rival was valid); *Money Store v. Harriscorp*
 10 *Finance, Inc.*, 689 F.2d 666, 677 (7th Cir. 1982) ("The plaintiff claims that the assignment is
 11 ineffective because it was a sham transaction, initiated by Harris for the sole purpose of obtaining
 12 superior rights to the mark in the Chicago area. Presumably, Harris sought the assignment
 13 because it knew of the plaintiff's prior rights in the mark. Harris did in fact know of the
 14 plaintiff's pending registration and it would be naive to conclude that knowledge was completely
 15 irrelevant to its decision to seek an assignment from United. . . . Obtaining the assignment from
 16 United is consistent with the defendant's documented belief that the plaintiff could not successfully
 17 assert nationwide rights in the mark, and therefore another institution was free to use the mark
 18 in the Chicago area. We do not believe that an assignment motivated at least in part by sound
 19 business judgment should be set aside as a sham transaction").

21 Assuming the GLOW KIT assignment is valid, this may or may not have an effect on Glow,
 22 Inc.'s ability to claim priority as senior user of the GLOW mark. The GLOW KIT trademark
 23 registration is limited to "[c]osmetics sold separately and as a kit, namely, alpha hydroxy acid
 24 creams, facial cleansing lotions, and skin creams containing vitamin A derivatives." There is no
 25

26 ¹⁰³Pearson Decl., ¶ 12. Glow, Inc.'s product catalogue indicates that the company sells
 27 moisturizers – i.e., GLOW Face and Hand GLOW – which contain alpha hydroxy acids.
 28 (Williamson Decl., ¶ 4, Ex. A.) It does not appear to assert that defendants' GLOW BY J.LO lotion infringes its use of the mark on these products, however.

1 evidence in the record that Glow, Inc.'s Body GLOW lotion incorporates alpha hydroxy acid or
2 vitamin A derivatives, nor is there evidence that it is a facial cleansing cream. Thus, on the
3 limited record presently before the court, it does not appear that the Lopez's ownership of the
4 GLOW KIT mark will affect the priority analysis.¹⁰⁴

(iv) Geographic Extent Of Glow, Inc.'s Trademark Usage

6 Although Glow, Inc. is likely to succeed in establishing that the GLOW mark is distinctive
7 and that it is the senior user of the mark, it must also demonstrate the territorial scope of its
8 trademark use in order to establish a likelihood of success on the merits. Generally, “in the
9 absence of federal registration, both parties have the right to expand [their use of an unregistered
10 mark] into unoccupied territory and establish exclusive rights by being first in that territory. In
11 effect, it is a race between the parties to establish customer recognition in unoccupied territory.”
12 4 J. Thomas McCarthy, MCCARTHY ON TRADEMARKS AND UNFAIR COMPETITION, § 26:13 (4th
13 ed. 2002). Compare *Value House v. Phillips Mercantile Co.*, 523 F.2d 424, 429 (10th Cir. 1975)
14 (“[Federal] registration is constructive notice of the registrant’s claim of ownership and affords
15 protection which is nationwide and not confined to actual use of the mark”).

Generally, the senior user of a mark is entitled to assert trademark rights in all areas in which it has legally sufficient market penetration. This is determined by examining the trademark user's volume of sales and growth trends, the number of persons buying the trademarked product in relation to the number of potential purchasers, and the amount of advertising. See, e.g., *Natural Footwear, Ltd. v. Hart, Schaffner & Marx*, 760 F.2d 1383, 1398-99 (3d Cir. 1985) (holding that the senior user had not established trademark rights outside the state of New Jersey). See also *Adray v. Adry-Mart, Inc.*, 76 F.3d 984, 989 (9th Cir. 1996) (holding that a trademark had not acquired secondary meaning outside Orange County, the court noted: "The extent of

¹⁰⁴Glow, Inc. argues that the GLOW KIT mark is not confusingly similar to GLOW, as it is associated with a medical product sold by a physician through his medical office in Illinois and over the internet, rather than in department stores and boutiques. (Pl.'s Reply at 13:4-18.) The record is devoid of evidence regarding the extent to which the market for the products overlaps, however.

1 market penetration depends upon the volume of sales, the positive and negative growth trends,
 2 the number of people who purchased the party's goods in relation to the number of potential
 3 customers, and the amount of advertising"). "Whether a volume of sales is significant will vary
 4 with the product and the market. The numbers that result in . . . relief in one case may not be
 5 significant in another." *Charles Jacquin Et Cie, Inc. v. Destileria Serralles, Inc.*, 921 F.2d 467,
 6 473 (3d Cir. 1990). Market share may also be used to assess whether penetration is legally
 7 significant. See *id.* at 473-74.

8 Where the trademark user has acquired a national reputation associated with its mark, it
 9 may assert trademark rights even in areas where it has no sales. See, e.g., *Champions Golf Club*
 10 v. *Champions Golf Club*, 78 F.3d 1111, 1124 (6th Cir. 1996) (" . . . '[m]ere geographical distance
 11 is not controlling where the reputation of the senior user's mark has been carried into a trade area
 12 prior to the junior user's adoption and use.' If [the senior user] had achieved nationwide
 13 recognition, then, even though [the junior user] had not heard of it, [the junior user] could not
 14 become an innocent junior user," quoting 4 J. Thomas McCarthy, MCCARTHY ON TRADEMARKS
 15 AND UNFAIR COMPETITION, § 26.06 (3d ed. 1995)). See also *Golden Door, Inc. v. Odisho*, 437
 16 F. Supp. 956, 962 (N.D. Cal. 1977) (determining that a nationwide injunction should issue under
 17 common law, the court noted that "[p]laintiff's service mark has been used since 1958 in
 18 connection with its spa in Escondido, California. Although the services are rendered locally,
 19 plaintiff has conducted extensive nationwide advertising and promotion with the purpose and
 20 effect of drawing clientele from many parts of the country"), aff'd., 646 F.2d 347 (9th Cir.
 21 1980), abrogated on other grounds in *Japan Telecom, supra*, 287 F.3d 866.

22 Finally, even if "the senior user cannot prove actual sales penetration into the contested
 23 area, and cannot prove that the reputation of its mark extends into that area, it may still make a
 24 claim that the junior user is located in an area which falls within the senior user's 'zone of natural
 25 expansion.'" 4 J. Thomas McCarthy, MCCARTHY ON TRADEMARKS AND UNFAIR COMPETITION,
 26 § 26.20 (4th ed. 2002). The "natural zone of expansion," however, is generally defined
 27 narrowly. See *Tally-Ho, Inc. v. Coast Community College District*, 889 F.2d 1018, 1028-29
 28 (11th Cir. 1989) (holding that a senior user that had used a mark at three community colleges in

1 Florida did not have a zone of expansion that included Dade County, Florida, *inter alia*, because
 2 at the time defendant began using the mark there the senior user had not penetrated the cable
 3 broadcast market in Dade, had made extremely limited use of the mark, and had not attempted
 4 to use it on cable broadcast systems anywhere in Florida); *Accu Personnel v. Accustaff, Inc.*, 846
 5 F. Supp. 1191, (D. Del. 1994) (refusing to find a zone of natural expansion in parts of
 6 Pennsylvania and Delaware as a result of plaintiff's use of a trademark in southern New Jersey
 7 because it failed to adduce any evidence that it had plans to expand into defendant's territory, and
 8 noting that “[t]he proper enquiry . . . is into what regions did plaintiff actually plan to expand at
 9 the time defendant adopted and began using its trademark”).

10 Glow, Inc. offers little evidence regarding the market penetration or sales of the three
 11 products at issue. Specifically, it has proffered no evidence detailing the volume of products it
 12 has sold. Similarly, save for the InStyle and Los Angeles magazine pieces, it has adduced no
 13 evidence regarding the manner in which the products have been advertised.¹⁰⁵ The majority of
 14 the evidence it has submitted, which concerns the advertising and sale of GLOW products
 15 generally, also provides little information that would assist the court in quantifying market
 16 penetration, sales levels, growth trends, or the number of people who purchased the company's
 17 products in relation to the number of potential customers.

18 Williamson states that Glow, Inc. began to sell its products at its Los Angeles retail store
 19 in 1999, at Bergdorf Goodman in New York City in the Fall of 2000, and on the national beauty
 20 website <www.gloss.com> in the Spring of 2000.¹⁰⁶ She further states that GLOW products are
 21 currently sold at an unspecified number of Nordstrom stores and Ritz Carlton Hotels, at retail

22

23 ¹⁰⁵Several of the magazine articles proffered mention Glow, Inc.'s bath and body products
 24 generally; these references might be interpreted to include the company's shower gel and lotion
 25 products. "The Hollywood Reporter" featured Glow Inc.'s bath and body gift pails in November
 26 2000. "Detour" featured Glow bath and body products as newly available at Bergdorf Goodman
 27 in New York, and "The New York Times Magazine" described the Glow store as "the place for
 all things lotiony, bathalicious and good smelling" in November 2001. (Williams Decl., ¶ 9, Ex.
 C.)

28 ¹⁰⁶Williamson Reply Decl., ¶¶ 8, 10.

1 stores in eleven states, and on Glow, Inc.'s website <www.glowspot.com>.¹⁰⁷ Williamson
 2 asserts that GLOW products are physically present in thirteen states, and that sales have been made
 3 in all fifty states. She proffers no evidence, however, as to the volume or level of sales in any
 4 location, nor how Glow, Inc.'s market penetration compares with that of its competitors.¹⁰⁸
 5 Williamson also contends that Glow, Inc. has participated in "co-branding ventures" with national
 6 companies such as Reebok and Ritz Carlton; once again, however, she does not quantify the sales
 7 made as a result of the arrangements, nor specify the geographical territories that they covered.¹⁰⁹
 8 Other than Williamson's general testimony regarding the company's nationwide sales, the record
 9 reflects only that Glow, Inc.'s Los Angeles store or certain of its products have been mentioned
 10 briefly in a variety of national magazines, including Mademoiselle, Marie Claire, Seventeen and
 11 Redbook. Viewed in its totality, the evidence is not adequate to establish that Glow, Inc. has
 12 legally sufficient market penetration in any territory to assert common law trademark rights.

13 Glow, Inc. would not need to establish such penetration if it could demonstrate
 14 alternatively that its mark had acquired a national reputation, or a reputation in certain designated
 15 geographic areas. Here again, however, the evidence does not suffice to make the necessary
 16 showing. While Glow, Inc. products are physically present in several states, are available on the
 17 internet, and have been mentioned in several national magazines, the generalized nature of the
 18 evidence presented precludes drawing inferences regarding the strength of the GLOW mark's
 19 resulting reputation.

20 Having failed to demonstrate that it will likely prove it has common law trademark rights
 21 in any particular geographic area, Glow, Inc. also may not argue that GLOW BY J.LO products
 22 infringe because they are being marketed in its "natural zone of expansion." Williamson asserts
 23 that Glow, Inc. has recently negotiated with venture capital firms to expand the presence of GLOW

25
 26¹⁰⁷Williamson Decl., ¶ 6.

27¹⁰⁸Williamson Reply Decl., ¶ 11.

28¹⁰⁹Williamson Decl., ¶ 9; Williamson Reply Decl., ¶ 3.

1 products in the marketplace.¹¹⁰ She further asserts that Glow, Inc. has recently discussed
2 nationwide distribution of GLOW products with two major department stores.¹¹¹ Based on these
3 comments, Glow, Inc. presumably argues that its “zone of natural expansion” is nationwide. See
4 *Accu Personnel v. Accustaff, Inc.*, 846 F. Supp. 1191, 1209 (D. Del. 1994) (“The proper inquiry
5 . . . is into what regions did plaintiff actually plan to expand at the time defendant adopted and
6 began using its trademark”).

Awarding common law trademark rights based on a “zone of natural expansion” presupposes, however, that the trademark user has already penetrated the market in at least some geographic areas and established a presence there. Indeed, it is only after existing zones of market penetration are determined that natural zones of expansion can be identified. See *Tally-Ho, supra*, 889 F.2d at 1028 (“[T]here are few firm guidelines to define the senior user’s imaginary zone of natural expansion. However, several criteria seem relevant: (1) How great is the geographical distance from the senior user’s actual location to a point on the perimeter of the zone of expansion? (2) What is the nature of the business? Does it already have a large or small zone of actual market penetration or reputation? (3) What is the history of the senior user’s past expansion? Has it remained static for years, or has it continually expanded into new territories? Extrapolating prior expansion, how long would it take the senior user to reach the periphery of the expansion zone he claims? (4) Would it require an unusual ‘great leap forward’ for the senior user to enter the zone, or is the zone so close to existing locations that expansion would be (or is) a logical, gradual, step of the same length as those previously made?”). Because Glow, Inc. has not adequately demonstrated the extent of its current market penetration, a zone of expansion that encompasses the entire nation is about as large a “leap” as it is possible to imagine. Considering both evidence of actual market penetration and possible areas of expansion,

¹¹⁰Williamson Decl., ¶ 8

¹¹¹*Id.*, ¶ 7; Williamson Reply Decl., ¶ 14. Williamson maintains these negotiations were tabled once the release of GLOW BY J.LO products was announced. (Williamson Decl., ¶ 8; Williamson Reply Decl., ¶ 14.)

1 therefore, the court concludes that Glow, Inc. has not demonstrated it is likely to prove national
 2 rights to the GLOW mark. Moreover, on the present record, the court cannot conclude that it is
 3 likely to prove sufficient market penetration in any particular geographic area to claim common
 4 law trademark rights as the senior user in that territory.

5 **2. Likelihood Of Confusion**

6 While the court has determined that Glow, Inc. is not likely to prove that GLOW is a
 7 protectable trademark, it will nonetheless examine whether defendants' use of GLOW BY J.LO will
 8 likely confuse the consuming public as to the source of the parties' products. "The test for
 9 likelihood of confusion is whether a 'reasonably prudent consumer' in the marketplace is likely
 10 to be confused as to the origin of the good or service bearing one of the marks." *Dreamworks*,
 11 *supra*, 142 F.3d at 1129 (footnote omitted). In *AMF Inc. v. Sleekcraft Boats*, 599 F.2d 341,
 12 348-49 (9th Cir. 1979), the Ninth Circuit identified eight factors that should be used in conducting
 13 this inquiry: (1) the strength of the mark; (2) the proximity or relatedness of the goods; (3) the
 14 marks' similarity in appearance, sound, and meaning; (4) evidence of actual confusion; (5) the
 15 degree to which the parties' marketing channels converge; (6) the type of goods and the degree
 16 of care customers are likely to exercise in purchasing them; (7) evidence of the defendants'
 17 intention in selecting and using the allegedly infringing name; and (8) the likelihood that the
 18 parties will expand their product lines. "The factors should not be rigidly weighed"
 19 (*Dreamworks*, *supra*, 142 F.3d at 1129), but rather "are intended to guide the court in assessing
 20 the basic question of likelihood of confusion" (*E. & J. Gallo Winery*, *supra*, 967 F.2d at 1290).
 21 The court need not address all of the factors, nor must plaintiff establish that each weighs in its
 22 favor in order to establish a likelihood of confusion. See *C & C Organization v. AGDS, Inc.*, 676
 23 F. Supp. 204, 206 (C.D. Cal. 1987) (citing *Apple Computer, Inc. v. Formula International, Inc.*,
 24 725 F.2d 521, 526 (9th Cir. 1984)).

25 Some of the *Sleekcraft* factors will be more important in certain contexts than in others.
 26 See, e.g., *Goto.com v. Walt Disney Co.*, 202 F.3d 1199, 1205 (9th Cir. 2000). The Ninth Circuit
 27 has suggested that three *Sleekcraft* factors are especially pertinent in reverse confusion cases:
 28 (1) the strength or arbitrariness of the mark; (2) the relatedness of the parties' goods; and (3) the

1 similarity of the marks. See *Dreamwerks, supra*, 142 F.3d at 1130. The court will consider these
 2 and the other relevant factors in turn below.

3 **a. Strength Of The Mark**

4 **(1) Distinctiveness**

5 “The strength of a given mark rests on its distinctiveness.” *Miss World (UK) Ltd. v. Mrs.*
 6 *America Pageants, Inc.*, 856 F.2d 1445, 1448 (9th Cir. 1988). The court has already determined
 7 that the GLOW mark will most probably be found to be suggestive. Glow, Inc. thus cannot claim
 8 broad protection for its mark, and should have anticipated some confusion with legitimate
 9 competitors as a consequence. *Dreamwerks, supra*, 142 F.3d at 1130 (“Had Dreamwerks chosen
 10 a descriptive mark like Sci-Fi Conventions Inc., or a suggestive mark like Sci-Fi World, some
 11 confusion with the marks of legitimate competitors might be expected”).¹¹²

12

13 ¹¹²While, as noted *infra*, the court evaluates the commercial strength of the junior user’s
 14 mark in a reverse confusion case, the conceptual strength test continues to focus on the senior
 15 user’s mark. See *A & H Sportswear, Inc. v. Victoria’s Secret Stores, Inc.*, 237 F.3d 198, 231
 16 (3d Cir. 2000) (“. . . in the paradigmatic reverse confusion case, the senior user has a
 17 commercially weak mark when compared with the junior user’s commercially strong mark. When
 18 it comes to conceptual strength, however, we believe that, just as in direct confusion cases, a
 19 strong mark should weigh in favor of a senior user. Our decision is supported by the fact that
 20 those courts that have clearly distinguished conceptual from commercial strength in the reverse
 21 confusion context have weighed a conceptually strong mark in the senior user’s favor, in the same
 22 manner as they would in direct confusion cases,” citing *Worthington Foods, Inc. v. Kellogg Co.*,
 23 732 F. Supp. 1417, 1456 (S.D. Ohio 1990), and *H. Lubovsky, Inc. v. Esprit de Corp.*, 627 F.
 24 Supp. 483, 487 (S.D.N.Y. 1986)); *id.* (“. . . as in direct confusion claims, a district court
 25 [judging a reverse confusion case] should weigh a conceptually strong mark in the plaintiff’s
 26 favor, particularly when the mark is of such a distinctive character that, coupled with the relative
 27 similarity of the plaintiff’s and defendant’s marks, a consumer viewing the plaintiff’s product is
 28 likely to assume that such a mark would only have been adopted by a single source – i.e., the
 defendant”). Focusing the conceptual strength test on plaintiff’s mark, and the commercial
 strength test on defendant’s mark avoids the anomalous result against which defendants caution
 (see Defs.’ Opp. at 13-14) – i.e., that a small plaintiff with a weak mark will be able more easily
 to prove likelihood of confusion than a large company with a strong distinctive mark and high
 market penetration. See *Chattanooga Mfg., Inc. v. Nike, Inc.*, 140 F. Supp. 2d 917, 927, n. 10
 (N.D. Ill. 2001) (“Nike urges us to consider the strength of Chattanooga’s mark because, to do
 otherwise, would work ‘a perverse result,’ i.e. ‘less imaginative marks (i.e. ‘Jordan’) would be
 more likely to win reverse confusion claims than arbitrary or fanciful marks (e.g. KODAK).’ . . .
 To address this potential anomalous result, the Third Circuit considers both a mark’s commercial

(2) Commercial Strength

“Placement on the spectrum of distinctiveness does not end the enquiry as to the strength of a mark: it is only the first step. The second step is to determine the strength of th[e] mark in the marketplace. That is, its degree of recognition in the minds of the relevant customer class.”

Miss World, supra, 856 F.2d at 1449 (quoting 1 J. McCarthy, MCCARTHY ON TRADEMARKS AND UNFAIR COMPETITION, § 11:1 (2d ed. 1984)). See also *Petro Shopping Centers v. James River Petroleum, Inc.*, 130 F.3d 88, 93 (4th Cir. 1997) (“. . . the placement of a mark in either the suggestive or descriptive category is merely the first step in assessing the strength of a mark for purposes of likelihood of confusion test. . . . [C]ourts must examine, in addition to the mark’s characterization as suggestive or descriptive, the extent of secondary meaning a mark has acquired in the eyes of consumers”); *Fisons Horticulture, Inc. v. Vigoro Industries, Inc.*, 30 F.3d 466, 479 (3d Cir. 1994) (“Distinctiveness on the scale of trademarks is one measure of a mark’s strength. . . . Commercial strength, or marketplace recognition of the mark, is another”); *John J. Harland Co. v. Clarke Checks, Inc.*, 711 F.2d 966, 975 (11th Cir. 1983) (the distinctiveness of the mark and the extent of third-party use “both . . . should be considered when analyzing the strength of a particular trademark”); *Sun Banks of Florida, Inc. v. Sun Federal Savings & Loan Ass’n.*, 651 F.2d 311, 315 (5th Cir. 1981) (after holding that plaintiff’s mark was arbitrary, the court stated: “The ultimate strength of a mark, [however,] the key inquiry before us, is determined by a number of factors which establish its standing in the marketplace”); 2 J. McCarthy, MCCARTHY ON TRADEMARKS AND UNFAIR COMPETITION, § 11.83 (4th ed. 1999) (“While some courts have made the strong-weak evaluation solely upon the place of a term on the spectrum of marks, such an approach is incomplete. One must in addition look at the marketplace

and conceptual strength. . . . Specifically, a plaintiff with a commercially weak mark is more likely to prevail on a reverse confusion claim than a plaintiff with a stronger mark. On the other hand, a conceptually strong mark weighs in the plaintiff's favor. We believe that this two-prong approach to the strength of mark determination would adequately address Nike's concern of 'perverse results' and, in fact, mirrors Defendants' own proposal to consider the strength of the junior user's mark in considering advertising and promotion but to measure the conceptual strength of the senior user." citing *A & H Sportswear, supra*, 237 F.3d at 230-32).

1 strength of the mark at the time of the litigation or at the time registration is sought").

2 Ordinarily, this test is applied to the senior user's mark. In a case of reverse confusion
 3 such as this one, however, the senior user's mark is usually weaker than the junior user's. See
 4 *Cohn v. Petsmart, Inc.*, 281 F.3d 837, 841 (9th Cir. 2002); *Walter v. Mattel, Inc.*, 210 F.3d
 5 1108, 1111, n. 2 (9th Cir. 2000); *Dreamwerks, supra*, 142 F.3d at 1130; *Fisons Horticulture*,
 6 *supra*, 30 F.3d at 479-80. Thus, a court should "evaluate the strength of the junior user's mark
 7 so as to gauge its ability to overpower the senior user's mark." 3 J. McCarthy, MCCARTHY ON
 8 TRADEMARKS AND UNFAIR COMPETITION, § 23:10 (4th ed. 2002) (citing *Dreamwerks, supra*, 142
 9 F.3d at 1130, n. 5); see also *Checkpoint Systems, Inc. v. Check Point Software Technologies*,
 10 *Inc.*, 269 F.3d 270, 303 (3d Cir. 2001) (holding that in a reverse confusion case, "[w]hile
 11 analysis of the strength of the senior user's mark is relevant, the more important inquiry focuses
 12 on the junior user's mark. [T]he lack of commercial strength of the smaller senior user's mark
 13 is to be given less weight in the analysis because it is the strength of the larger, junior user's mark
 14 which results in reverse confusion. . ." (internal quotation marks and citations omitted)); *A & H*
 15 *Sportswear, Inc. v. Victoria's Secret Stores, Inc.*, 237 F.3d 198, 231 (3d Cir. 2000) (". . . in a
 16 reverse confusion claim, a court should analyze the . . . factor in terms of
 17 (1) the commercial strength of the junior user as compared to the senior user; and (2) any
 18 advertising or marketing campaign by the junior user that has resulted in a saturation in the public
 19 awareness of the junior user's mark");¹¹³ *Sunenblick v. Harrell*, 895 F. Supp. 616, 627 (S.D.N.Y.
 20 1995) ("It is the essence of reverse confusion that the senior user's mark will be comparatively
 21 weaker – and quite probably much weaker indeed – than that of the powerful junior user. It is
 22 in such cases, where the visibility and strength of the junior user's mark have occupied the field,
 23 that the consumer is likely to consider the senior user's product as either emanating from the

24

25 ¹¹³The court noted, however, that in reverse confusion cases, "as in direct confusion
 26 claims, a district court should weigh a conceptually strong mark in the plaintiff's favor,
 27 particularly when the mark is of such a distinctive character that, coupled with the relative
 28 similarity of the plaintiff's and defendant's marks, a consumer viewing the plaintiff's product is
 likely to assume that such a mark would only have been adopted by a single source – i.e., the
 defendant." *Id.* at 232.

1 junior user or infringing upon the junior user's trademark rights. Consequently, the court should
 2 properly examine the strength of the junior user's mark"), aff'd., 101 F.3d 684 (2d Cir. 1996).
 3 The court must therefore assess the commercial strength of defendants' GLOW BY J.LO mark in
 4 determining likelihood of confusion.

5 Key factors in conducting this evaluation the comparative commercial strength of the junior
 6 and senior users and any advertising or marketing campaign by the junior user that has resulted
 7 in "a saturation in the public awareness of the junior user's mark." *A & H Sportswear, supra*,
 8 237 F.3d at 231. See also *Checkpoint Systems, supra*, 269 F.3d at 303 ("Courts should look at
 9 the commercial strength of the junior user's mark to determine whether its advertising and
 10 marketing has resulted in a 'saturation in the public awareness of the junior user's mark'");
 11 *Fisons, supra*, 30 F.3d at 479 ("In reverse confusion, the junior user is typically a wealthier,
 12 more powerful company who can overwhelm the market with advertising. An aggressive junior
 13 user may thereby achieve greater commercial strength in a short period of time than the senior
 14 user has after years of marketing its product"); *Altira Group LLC v. Philip Morris Companies*
 15 *Inc.*, 207 F. Supp. 2d 1193, 1204 (D. Colo. 2002) ("With respect to commercial strength, Philip
 16 Morris's mark is likely to be strong as it has traditionally spent large sums of money on
 17 advertising campaigns. For instance, it spent an estimated \$200 million advertising a 'feel good'
 18 campaign promoting its 'Philip Morris' mark. Altira Group argues it is likely that Philip Morris
 19 will spend even more money to advertise its new name 'ALTRIA' while it attempts to distance
 20 itself from being known only as a tobacco company. According to Altira, Philip Morris's
 21 self-proclaimed goal is to 'create 90% awareness of name change in the investment community
 22 among active investors by end of 2002.' . . . Philip Morris does not respond to this contention
 23 because it analyzes the strength of the [senior] user's mark, as in cases of forward confusion. I
 24 agree with Altira that the ALTRIA mark would be strong").

25 Applying such an analysis here, it is immediately apparent that Coty and Jennifer Lopez
 26 are stronger commercially than Glow, Inc. Coty is one of the world's leading manufacturers and
 27 marketers of women's and men's fragrances, cosmetics and skin care products. Its prestige
 28 division, Lancaster Group, manufactures and markets fragrance and cosmetic brands in nine

1 European countries and the United States.¹¹⁴ Coty's worldwide sales in 2002 were \$1.65 billion;
 2 Advertising Age Magazine has estimated that Coty is the fifty-ninth largest advertiser in the
 3 world.¹¹⁵ Coty's prestige brands include Lancaster, Davidoff, Joop!, Chopard, Jil Sander, Yue-
 4 Sai Kan, Isabella Rossellini's Manifesto, Vivienne Westwood Boudoir and Glow by J.Lo.¹¹⁶ The
 5 GLOW BY J.LO product line is currently being sold in the United States, France, Benelux, Israel,
 6 Germany, Austria and Switzerland.¹¹⁷ Sales in the United States reached \$17.9 million by the end
 7 of September, and Coty estimates that they will total approximately \$47 million by the end of
 8 fiscal year 2003.¹¹⁸ Lopez is an internationally known celebrity who has released three successful
 9 music albums, including "J.Lo" and "J to tha L-O!" Additionally, she has starred in a number
 10 of major motion pictures, including "Selena," "Out of Sight," "The Wedding Planner," and
 11 "Enough."¹¹⁹ Coty estimates that the public's fascination with Lopez has created an "added
 12 value" of \$4 million for the GLOW BY J.LO line.¹²⁰

13 By contrast, Glow, Inc. has a relatively limited sales presence in a handful of states and
 14 on the internet.¹²¹ Glow, Inc. readily concedes that it is unable to match defendants' commercial
 15 expenditures.¹²² No GLOW products are currently sold internationally, although Glow, Inc. has
 16 begun to negotiate with department stores in the United Kingdom and Japan.¹²³

28¹²³*Id.*, ¶ 12.

1 In addition to the disparity in commercial strength, the record demonstrates that Glow, Inc.
 2 has developed the market for its products using relatively low budget marketing techniques – i.e.,
 3 sending gift baskets to celebrities, securing free publicity in women's magazines, co-branding
 4 ventures with prominent companies, and other “grass-roots” methods.¹²⁴ Defendants, by contrast,
 5 have expended substantial monies advertising the GLOW BY J.LO line. Coty's current investment
 6 in manufacturing, marketing and promoting the GLOW BY J.LO products is approximately \$29.5
 7 million.¹²⁵ Advertising expenditures to date are estimated at \$5.2 million, although some
 8 additional media coverage has been generated without cost because of Lopez's affiliation with the
 9 product.¹²⁶ Defendants have promoted the products on national television and radio, and through
 10 billboards, magazines and newspaper advertisements.¹²⁷ Given their advertising expenditures to
 11 date, defendants can be expected to incur significant promotional costs during the upcoming
 12 holiday season.

13 Based on their commercial strength and reputations, and the advertising expenditures they
 14 have made to promote the GLOW BY J.LO line, the court concludes that defendants' product line
 15 is likely to overwhelm plaintiff's in the market to the extent they are in competition with one
 16 another. See *Cohn, supra*, 281 F.3d at 841 (“PetSmart's extensive advertising gives it the ability
 17 to overwhelm any public recognition and goodwill that Cohn has developed in the mark”); *Walter,*
 18 *supra*, 210 F.3d at 1111, n. 2 (“In a reverse confusion case . . . the issue is whether the junior
 19 mark is so strong as to overtake the senior mark”). This fact is offset, however, by the relative
 20 weakness of Glow, Inc.'s mark, which is suggestive only, and which competes in an exceedingly
 21 crowded field of beauty products using the word “glow” in some manner as a trade name or
 22 trademark. See *E. & J. Gallo Winery, supra*, 967 F.2d at 1291 (suggestive marks are given

23
 24 ¹²⁴Williamson Reply Decl., ¶¶ 3, 18.
 25

 27

28 ¹²⁶Walsh Decl., ¶ 12.
 29

30 ¹²⁷Williamson Reply Decl., ¶ 18.
 31

1 moderate protection); *Nutri/System, Inc. v. Con-Stan Industries, Inc.*, 809 F.2d 601, 605 (9th Cir.
 2 1987) (same); *Franklin Resources, Inc. v. Franklin Credit Management Corp.*, 988 F. Supp. 322,
 3 328 (S.D.N.Y. 1997) (“. . . ‘a finding of suggestiveness does not guarantee a determination that
 4 the mark is a strong one. Although a suggestive mark is entitled to registration without evidence
 5 of secondary meaning, suggestiveness is not necessarily dispositive of the issue of the strength of
 6 the mark.’ . . . In the case at bar, the duration and volume of the business that Franklin
 7 Resources has done under the name ‘Franklin’ militate in favor of the strength of its mark. On
 8 the other hand, Franklin Credit has shown extensive use of the name ‘Franklin’ by third parties
 9 engaged in one aspect or another of the financial service industry. Defendant produced a chart
 10 listing 65 such companies culled from the Yellow Pages of telephone directories. Plaintiff says
 11 that this list of names proves very little as to what these third parties do or with whom they do it,
 12 but the list of names is probative of seemingly widespread usage of the name ‘Franklin’ in
 13 connection with such activities or services, prompted, one may reasonably infer, by an esteem
 14 third parties share with the plaintiff for Benjamin Franklin. It is well settled that third-party
 15 registration and use dilutes the strength of a trademark. . . . That dissolution is significant in the
 16 case at bar”). See also *Estee Lauder Inc. v. The Gap, Inc.*, 108 F.3d 1503, 1509-11 (2d Cir.
 17 1997) (while upholding the district court’s finding that Estee Lauder’s “100% Time Release
 18 Moisturizer” mark was suggestive, the court reversed its finding that the mark was strong, as
 19 Lauder’s use of 100% was not original, it conceded that consumers did not associate the term with
 20 Lauder, and there were more than seventy trademark registrations, pending applications for
 21 registration or renewal, or publications-for-opposition that incorporated the term 100%, some of
 22 which were for cosmetic products); *Harlem Wizards Entertainment Basketball, Inc. v. NBA
 23 Properties, Inc.*, 952 F. Supp. 1084, 1097 (D.N.J. 1997) (“This Court has already determined
 24 that the mark WIZARDS is suggestive and therefore, inherently distinctive. Nonetheless, this
 25 categorization of plaintiff’s mark does not in and of itself establish that plaintiff’s mark is strong
 26 and that the likelihood of confusion exists. Although plaintiff’s mark is distinctive, it is
 27 undeniably commercially weak. . . . In evaluating this likelihood-of-confusion factor, the Court
 28 does not hold plaintiff to the same standard as defendants who have the financial ability to expend

1 large sums of money on promotion and advertising. Nonetheless, the Court finds that the inherent
 2 distinctiveness of plaintiff's mark does not override its marked commercial weakness, even when
 3 this factor is weighed more heavily. Because the mark is weak it fails to identify plaintiff's
 4 services with a particular source. Therefore, the Court finds that this factor favors the
 5 defendants"); *Worthington Foods, Inc. v. Kellogg Co.*, 732 F. Supp. 1417, 1456 (S.D. Ohio
 6 1990) (holding that the strength of mark factor did not favor a finding of likelihood of confusion
 7 in a reverse confusion case, *inter alia*, because the HEARTWISE mark was "not, by its inherent
 8 nature, a 'strong' mark; it [was] neither fanciful nor arbitrary").

9 The key question in such a case is whether consumers who encounter Glow, Inc.'s
 10 products will believe that they are associated with defendants' GLOW BY J.LO line. See *Walter*,
 11 *supra*, 210 F.3d at 1110 ("The question in such cases is whether consumers doing business with
 12 the senior user might mistakenly believe that they are dealing with the junior user," quoting
 13 *Dreamwerks*, *supra*, 142 F.3d at 1130); 3 J. Thomas McCarthy, MCCARTHY ON TRADEMARKS
 14 AND UNFAIR COMPETITION, § 23:10 (4th ed. 2002) ("In a reverse confusion case, it makes more
 15 sense to evaluate whether persons familiar with the junior user's stronger mark, and who
 16 encounter the senior user's weaker and less well-known mark, associate it with the junior user's
 17 mark"). Here, given the relative conceptual weakness of the mark and the number of
 18 fragrance/lotion products in the market that use the word "glow" in some fashion in their
 19 trademark or trade name, it is not immediately clear that consumers will make this association.
 20 See *A & H Sportswear Co., Inc. v. Victoria's Secret Stores, Inc.*, 167 F. Supp. 2d 770 (E.D. Pa.
 21 2001) (noting that the strength of the mark factor "favors the senior user when there is a
 22 commercially strong junior user who adopts a conceptually strong mark").

23 Accordingly, while defendants' commercial strength is likely to overwhelm plaintiff in the
 24 marketplace to the extent their products compete, the court concludes that Glow, Inc. will not
 25 likely be able to prove that the strength of the mark factor favors a finding of likelihood of
 26 confusion because its own mark is conceptually weak and operates in a crowded field.

27 **b. Proximity Or Relatedness Of The Parties' Goods**

28 "Related goods are those 'products which would be reasonably thought by the buying

1 public to come from the same source if sold under the same mark.”” *Sleekcraft, supra*, 599 F.2d
 2 at 348, n. 10 (quoting *Standard Brands, Inc. v. Smidler*, 151 F.2d 34, 37 (2d Cir. 1945));
 3 *Fleischmann Distilling Corp. v. Maier Brewing Co.*, 314 F.2d 149, 159 (9th Cir. 1963) (“The
 4 use need not be the same as, nor one in competition with the original use. The question is, are
 5 the uses related so that they are likely to be connected in the mind of a prospective purchaser?”).
 6 See also *Brookfield Communications, supra*, 174 F.3d at 1056 (holding that because “both
 7 companies offer products and services relating to the entertainment industry generally, and their
 8 principal lines of business both relate to movies specifically,” there was sufficient relatedness of
 9 goods to support a finding of likelihood of confusion); 4 J. McCarthy, MCCARTHY ON
 10 TRADEMARKS AND UNFAIR COMPETITION, § 24.24 (4th ed. 2002) (“Goods are ‘related’ if
 11 consumers are likely to mistakenly think that the infringer’s goods come from the same source
 12 as the senior user’s goods or are sponsored or approved by the senior user”).

13 The GLOW and GLOW BY J.LO product lines are clearly related. While Glow, Inc.’s line
 14 is broader, both companies offer lotion, shower gel, and fragrance products.¹²⁸ Indeed, many of
 15 the natural oils used to create the GLOW BY J.LO fragrance – e.g., orange flower, grapefruit,
 16 rose, sandalwood, amber, jasmine, and vanilla – are found in GLOW products as well.¹²⁹ “GLOW
 17 Scent” perfume may be purchased in sandalwood, and both “Body GLOW” lotion and “Wash &
 18 GLOW” shower gel may be purchased in grapefruit, orange-vanilla, or sandalwood scents.¹³⁰

19 The products are also sold at comparable prices, and are thus accessible to comparable
 20 groups of consumers. The suggested retail price for GLOW BY J.LO eau de toilette is \$50 for 3.4
 21 ounces, \$38.50 for 1.7 ounces, and \$29.50 for 1.02 ounces. The suggested retail price for GLOW
 22

23

24 ¹²⁸ Defendants note that their primary fragrance product is a eau du toilette while plaintiff’s
 25 is a perfume. As Williamson aptly notes, the terms “cologne, eau de toilette, and perfume” are
 26 generally used interchangeably by the consuming public. (Williamson Reply Decl., ¶ 5.)

27 ¹²⁹*Id.*, ¶ 6.

28 ¹³⁰Williamson Decl., Ex. A.

1 BY J.LO lotion is \$25, while the shower gel is intended to retail at \$20.¹³¹ GLOW perfume is
 2 priced at \$42 for 0.5 ounces; Glow, Inc.'s lotion is priced at \$22; and its shower gel is priced at
 3 \$16 for an 8 ounce bottle.¹³² While the record contains no evidence that the products are sold in
 4 the same stores, each line is available in upscale department stores and specialty boutiques that
 5 cater to high-end retail customers.¹³³

6 Defendants argue the products are not related because they appeal to different customer
 7 groups. They describe GLOW BY J.LO as a "mass department store fragrance line," and contrast
 8 this with Glow, Inc.'s "natural aromatherapy alternative products" and "no-frills 'niche'"
 9 products.¹³⁴ Glow, Inc.'s catalog states that the company is "obsessive about the sanctity of the
 10 bathing ritual," that its products are "made from the highest quality natural ingredients" and that
 11 they are "mixed, packaged and labeled by hand."¹³⁵ Several magazine articles discussing GLOW
 12 products have reiterated these concepts. InStyle magazine stated: "Don't let the plain bottles and
 13 simple labels fool you. These bath and body products from the Glow store in L.A. are truly
 14 indulgent." The New York Times Magazine stated that Glow is "the place for all things lotiony,
 15 bathalicious and good smelling, where nothing is made from chemicals." A blurb in
 16 Entertainment Weekly, which appeared after this suit was filed, described Glow, Inc.'s line as
 17 "natural bath and body products," and quoted Williamson's statement that the company's
 18 "presentation is all about simplicity[;] . . . what's inside the bottles is really the star."¹³⁶
 19 Defendants contend this evidence demonstrates that the products are distinguishable, as Coty does
 20 not "plan[] to use [the] GLOW BY J.LO [mark] for a 'natural alternative' niche line of

21
 22 ¹³¹Walsh Decl., ¶ 15.

23 ¹³²Williamson Decl., Ex. A. While Glow, Inc.'s fragrance prices are somewhat higher,
 24 this is attributable to the fact that its product is a perfume rather than a eau de toilette.

25 ¹³³See *infra* at 55-56.

26 ¹³⁴Defs' Opp. at 16:26-27.

27 ¹³⁵Williamson Decl., Ex. A.

28 ¹³⁶Williamson Decl., ¶ 9, Ex. C.

1 products.”¹³⁷

2 Courts have held that the mere fact that “two products or services fall within the same
 3 general field . . . does not mean that the two products or services are sufficiently similar to create
 4 a likelihood of confusion.” *Harlem Wizards Entertainment Basketball*, *supra*, 952 F. Supp. at
 5 1095 (“Meaningful differences between the products and services are often cited as a factor
 6 tending to negate reverse confusion, even when the products are superficially within the same
 7 category). In *Sunenblick v. Harrell*, 895 F. Supp. 616 (S.D.N.Y. 1995), aff’d., 101 F.3d 684
 8 (2d Cir. 1996), for example, the court found that plaintiff’s and defendant’s use of the UPTOWN
 9 RECORDS mark for music recordings did not create a likelihood of confusion because “[plaintiff]’s
 10 products [were] addressed to a somewhat esoteric market, viz., purchasers interested in lost or
 11 forgotten jazz artists, in the ‘straight ahead jazz’ category, whereas defendants sell rap
 12 recordings,” and because the distinct recordings were “featured in different sections of the stores
 13 . . . according to genre and not by label name.” *Id.* at 629. See also *Harlem Wizards*
 14 *Entertainment Basketball*, *supra*, 952 F. Supp. at 1095 (“The show basketball performed by
 15 plaintiff is markedly distinct from NBA competitive basketball in myriad ways. As a show
 16 basketball team, plaintiff simply does not play NBA level competitive basketball. . . . Therefore,
 17 the court finds that when every aspect of the two teams is compared, there is glaring
 18 dissimilarity”).

19 There is no evidence in the present record that would support a finding that purchasers of
 20 “mass department store” fragrances or lotions are not also potential purchasers of natural,
 21 aromatherapy products. The products are sold in the same types of stores – i.e., upscale
 22 department and high end specialty stores – and are used for the same purposes. See 4 J.
 23 McCarthy, MCCARTHY ON TRADEMARKS AND UNFAIR COMPETITION, § 24.22 (4th ed. 2002)
 24 (“One way to define ‘competitive’ goods is that they are goods that are reasonably interchangeable
 25 by buyers for the same purposes”). Because defendants’ “use need not be the same as, nor one
 26 in competition with the original use,” and because the key “question is, are the uses so related that

27
 28 ¹³⁷Walsh Decl., ¶ 8.

1 they are likely to be connected in the mind of a prospective purchaser" (*Fleischmann Distilling*
 2 *Corp., supra*, 314 F.2d at 159), the court concludes that Glow, Inc. will likely be able to prove
 3 the products are related in a trademark sense. See *Dreamwerks, supra*, 142 F.3d at 1131 ("...
 4 the relatedness of each company's prime directive isn't relevant. Rather, we must focus on
 5 Dreamwerks' customers and ask whether they are likely to associate the conventions with
 6 DreamWorks the studio. Entertainment studios control all sorts of related industries: publishing,
 7 clothing, amusement parks, computer games and an endless list of toys and kids' products. In this
 8 environment it's easy for customers to suspect DreamWorks of sponsoring conventions at which
 9 movie merchandise is sold"). See also *Checkpoint Systems, supra*, 269 F.3d at 302, n. 32 ("The
 10 proper inquiry in a reverse confusion claim is whether consumers will assume the senior user's
 11 goods are associated with the junior user. Just as in a direct confusion claim, the relatedness of
 12 the parties' products is integral to the finding of likely confusion. If two products are unrelated,
 13 there is little reason to assume confusion since most consumers would not assume that a single
 14 company would market two completely unrelated products. On the other hand, when the goods
 15 are related, a customer might reasonably assume the junior user with a strong market presence
 16 would sell both products").

17 In the instant case, consumers could well believe that a "mainstream" cosmetics company
 18 like Coty had expanded into the "natural, aromatherapy" market. See *Cohn, supra*, 281 F.3d
 19 at 841 (holding that parties' goods and services were related, as plaintiff "provides veterinary
 20 services and makes ancillary sales of pet supplies, while PetSmart sells pet supplies and offers
 21 ancillary veterinary services through Dr. Barton"). Compare *Checkpoint Systems, supra*, 269
 22 F.3d at 302, n. 32 ("The District Court recognized that consumers of [defendant's] highly
 23 sophisticated technical computer security systems would have no reason to believe that [plaintiff's]
 24 physical article surveillance system was manufactured by [defendant]. Because the 'computer
 25 information' niche that [defendant] operated in was unique and technical there is no reason to
 26 believe a consumer would assume that [it] had expanded into the market for a different type of
 27 security product. The same is true of [plaintiff's] customers. Because of the complicated
 28 technology involved in the 'computer information' niche, these customers would not assume that

1 [plaintiff] had moved into this market"). Accordingly, this factor favors a finding of likelihood
 2 of consumer confusion.

3 **c. Similarity Of The Marks**

4 "Similarity of the marks is tested on three levels: sight, sound, and meaning." *Sleekcraft*,
 5 *supra*, 599 F.2d at 351. In judging similarity, trademarks should be considered as they are
 6 encountered in the marketplace, taking into account the normal circumstances surrounding
 7 purchase of the type of goods they represent. *Id.*; *Lindy Pen Co. v. Bic Pen Corp.*, 725 F.2d
 8 1240, 1245 (9th Cir. 1984), cert. denied, 469 U.S. 1188 (1985); *Walt Disney Productions v. Air*
 9 *Pirates*, 581 F.2d 751, 759 (9th Cir. 1978).

10 The sound and meaning of the two marks is clearly similar, as both use the word "glow"
 11 to evoke images of glowing skin and positive feelings associated with use of the companies'
 12 fragrances. Defendants argue, however, that their use of "glow" in conjunction with the
 13 distinctive celebrity mark "J.Lo" reduces the likelihood that consumers will confuse Glow, Inc.'s
 14 products with their own. It is true that marks may not be dissected, but must be compared in their
 15 entirety. See 3 J. McCarthy, MCCARTHY ON TRADEMARKS AND UNFAIR COMPETITION, § 23.43
 16 (4th ed. 2002); *Official Airline Guides, Inc. v. Goss*, 6 F.3d 1385, 1392 (9th Cir. 1993) ("The
 17 marks must be considered in their entirety and as they appear in the marketplace"); *A & H*
 18 *Sportswear Co.*, *supra*, 167 F. Supp. 2d at 780 (same). In the reverse confusion context,
 19 however, the addition of a celebrity "housemark" to an allegedly infringing mark may heighten
 20 confusion rather than reduce it. See *Americana Trading, Inc. v. Russ Berrie & Co.*, 966 F.2d
 21 1284, 1288 (9th Cir. 1284) ("[T]he prominence of Russ's housemark may serve to create reverse
 22 confusion that Russ, and not Amtra, is the source of Amtra's 'Wedding Bears.' Russ's
 23 housemark therefore does not, as a matter of law, render its use of 'Wedding Bear' non-similar
 24 to Amtra's trademark. . . . Indeed, use by Russ of its housemark along with Amtra's trademark
 25 may 'be an aggravation and not a justification, for it is openly trading in the name of another upon
 26 the reputation acquired by the device of the true proprietor'"). See also *A & H Sportswear*, *supra*,
 27 237 F.3d at 229 ("As to the presence of the housemark on the Victoria's Secret product, not only
 28 is there the possibility that consumers will fail to remember the mark when encountering A & H's

1 swimwear, but there is also the possibility that the mark will *aggravate*, rather than mitigate,
 2 reverse confusion, by reinforcing the association of the word ‘miracle’ exclusively with Victoria’s
 3 Secret”); *Sands, Taylor & Wood Co. v. The Quaker Oats Co.*, 978 F.2d 947, 959 (7th Cir. 1992)
 4 (“[I]t is precisely the strong association between Gatorade and ‘Thirst Aid’ created by Quaker’s
 5 ads that is likely to create confusion in this case. Under the circumstances, the linking of the
 6 plaintiffs’ mark with the defendant’s brand name is an aggravation, not a justification”).

7 Here, while no evidence of actual consumer reaction has been adduced by either party, it
 8 appears that “J.Lo” may be the dominant portion of defendants’ composite mark, given Lopez’s
 9 high profile in the entertainment world, and the relatively commonplace use of “glow” within the
 10 cosmetics industry. Given the reverse confusion context, however, the court cannot conclude,
 11 in the absence of survey or other evidence of consumer reaction to the products as encountered
 12 in the marketplace, that the addition of the “J.Lo” housemark mitigates the likelihood of
 13 consumer confusion. Cf. *A & H Sportwear, supra*, 167 F. Supp. 2d at 780 (declining to adopt
 14 a *per se* rule that the junior user’s addition of a housemark aggravates confusion in a reverse
 15 confusion case, and stating that “[t]he better approach is to look at whether the housemark
 16 increases or decreases consumer confusion in the particular case”). But see *Cohn, supra*, 281
 17 F.3d at 842 (holding that there was no likelihood of confusion in a reverse confusion case, *inter*
 18 *alia*, because both plaintiff and defendant used the trademark “WHERE PETS ARE FAMILY” with
 19 distinctive housemarks, i.e., Critter Clinic and PetSmart, which provided the “dominate
 20 commercial identity” and reduced the potential for confusion). On the present record, the sound
 21 and meaning of the marks must be viewed as similar for purposes of this preliminary injunction
 22 proceeding.

23 As they appear on the parties’ products, however, the marks are visually distinct. GLOW
 24 perfume is packaged in a small, dark apothecary-style bottle, which is placed inside a white box.
 25 Both the box and the bottle bear the same identifying label.¹³⁸ GLOW BY J. LO eau de toilette is
 26 packaged in a stylized bottle of frosted glass, around which is draped a silver necklace with the
 27

28 ¹³⁸*Id.*, Ex. 48 (GLOW perfume bottle and box).

1 "J.Lo" insignia. This bottle is placed inside a white box that bears the GLOW BY J.LO mark.¹³⁹
2 GLOW shower gel is packaged in a clear cylindrical bottle, while GLOW BY J.LO shower gel is
3 packaged in a white squeeze-tube whose cap is at its base.¹⁴⁰ GLOW lotion is packaged in a silver
4 cylindrical bottle with a black dispenser top, while GLOW BY J.LO lotion is sold in a tube that is
5 identical to that used for GLOW BY J.LO shower gel.¹⁴¹

6 The GLOW mark is printed in lowercase courier-type font on all Glow, Inc. products. The
7 overall look is clean and suggestive of a label prepared by a typewriter. The labels employ a
8 standardized format – the GLOW mark is placed at the top of the label; two sets of double lines
9 frame the individual product name in the center; and the words “los angeles” are printed below
10 the second set of double lines.

The packaging of GLOW BY J. LO products is more elaborate and not as uniform. The word “Glow” appears on all GLOW BY J. LO products in a non-courier font, with the “G” capitalized. “Glow” is printed in orange on defendants’ shower gel and lotion containers, while “J. Lo” is printed in silver, using the distinctive lowercase font and lettering that have come to be associated with Lopez. Defendants’ eau de toilette bottle features the GLOW BY J. LO mark in a non-courier font around the bottle’s cap, while a pendant “J. Lo,” printed in the distinctive typeface associated with Lopez, hangs from strands around the bottle – giving the illusion of a necklace encrusted in diamonds or rhinestones. The box for the shower gel, lotion and eau de toilette bears the GLOW BY J. LO mark. The word “Glow” is printed in an orange, non-courier font, while “J. Lo” is printed in lowercase, silver, hammersmith letters. “J. Lo” is also printed in beige letters of the same font that descend in a diagonal pattern down the box front.¹⁴²

22 "Different packaging, coloring, and labeling can be significant factors in determining

¹³⁹Id., Ex. 47 (GLOW BY J. LO eau de toilette bottle and box).

¹⁴⁰Williamson Reply Decl., Ex. U (GLOW and GLOW BY J.LO shower gel bottles).

¹⁴¹Id. (GLOW and GLOW BY J. LO lotion bottles).

¹⁴²Walsh Decl., Exs. 47-48; Williamson Reply Decl., Exs. S, U

1 whether there is a likelihood of confusion.” *Packman v. Chicago Tribune Co.*, 267 F.3d 628,
 2 644 (7th Cir. 2001). See also *Nabisco, Inc. v. Warner-Lambert Co.*, 220 F.3d 43, 47 (2d Cir.
 3 2000) (“Our inquiry does not end with a comparison of the marks themselves. Rather, in
 4 determining whether two marks are confusingly similar, we must ‘appraise the overall impression
 5 created by . . . the context in which they are found and consider the totality of factors that could
 6 cause confusion among prospective purchasers’”); *Streetwise Maps, Inc. v. Vandam, Inc.*, 159
 7 F.3d 739, 744 (2d Cir. 1998) (“In determining whether the two marks are similar, and therefore
 8 likely to provoke confusion among prospective purchasers, courts appraise ‘the overall impression
 9 created by the logos and the context in which they are found and consider the totality of factors
 10 that could cause confusion among prospective purchasers,’” quoting *Gruner + Jahr USA
 Publishing v. Meredith Corp.*, 991 F.2d 1072, 1075 (2d Cir. 1993)); *Heartsprings, Inc. v.
 Heartspring, Inc.*, 143 F.3d 550, 554 (10th Cir. 1998) (“Even if the trade names are similar, the
 13 likelihood of confusion is reduced if the two trademarks, taken as a whole, are visually distinct”).

14 Here, as noted, the packaging used by plaintiff and defendants for their fragrance products
 15 is quite different, and tends to minimize any confusion generated by the similarity in the sound
 16 and meaning of the trademarks. The packaging used for the shower gel and lotion products is
 17 more generic, and therefore less distinct. GLOW BY J.LO products are packaged in squeeze tubes,
 18 while GLOW products are offered in cylindrical bottles. Both containers are relatively common
 19 for the type of cosmetic products involved. The packaging is nonetheless different, however, as
 20 is the presentation of the marks on the product labels and the boxes in which the products are
 21 placed. The manner in which the products are presented in the marketplace accordingly
 22 minimizes the likelihood that consumers will conclude they emanate from the same source. For
 23 this reason, the court concludes that, in commercial context, the marks are not visually similar,
 24 and that this factor weighs against a finding that Glow, Inc. will be able to prove likelihood of
 25 confusion. See *Nabisco, supra*, 220 F.3d at 47-48 (holding that the presentation of competing
 26 marks “in starkly different typefaces and styles,” as well as differences in the shape, dimensions
 27 and color patterns of product packages gave rise to “distinctly different commercial impressions”
 28 and negated any likelihood of consumer confusion); *Walter, supra*, 210 F.3d at 1111 (holding,

1 in a reverse confusion case, that “[t]he appearance of the respective marks . . . negates any
 2 similarity. Occasionally, in Walter’s materials, the term ‘Pearl Beach’ appeared in plain font
 3 either above or below a monochromatic, stylized scallop shell with a pearl at the center of the
 4 shell. In contrast, Mattel’s packaging depicts a bright pink radial sculpture clamshell tilted to one
 5 side with the words ‘Pearl Beach’ in wavy, sandy-textured script with glittery accents over the
 6 name ‘Barbie’ (or ‘Friend of Barbie’). The term ‘Pearl Beach’ in Mattel’s products never appears
 7 alone; rather, it is invariably accompanied by a reference to Barbie, which is clearly the ‘salient
 8 part of the mark indicative of the product’s origin.’ . . . In other words, ‘Barbie’ is the dominant
 9 part of the ‘Pearl Beach Barbie’ mark. Accordingly, the district court correctly concluded that
 10 plaintiff’s own distinctive logo is not similar in appearance to Mattel’s packaging of its Pearl
 11 Beach products”); *Luigino’s, Inc. v. Stouffer Corp.*, 170 F.3d 827, 831 (8th Cir. 1999)
 12 (considering, *inter alia*, the fact that “[t]he trade dress of the two [parties’] packages [was] . . .
 13 visually distinct,” with “different colors and typefaces,” in concluding that MICHELINA’S LEAN
 14 ‘N TASTY was not confusingly similar to STOUFFER’S LEAN CUISINE as a matter of law);
 15 *Streetwise Maps*, *supra*, 159 F.3d at 744-45 (“Several key distinctions may be observed between
 16 the products themselves and the overall impression created by the marks that would lead
 17 consumers to believe the products originated from different companies. For example, although
 18 the two maps are similar in size, they have different folds (VanDam’s triple gate unfold versus
 19 Streetwise’s accordion unfold), different logos (e.g., VanDam, Inc.’s use of the large NYC and
 20 Lady Liberty logos), and different dress colors and typefaces. Further, while Streetwise appears
 21 as one word, StreetSmart, because of its color scheme, appears as two separate words. Moreover,
 22 while the mark ‘StreetSmart’ stands by itself and encompasses roughly one-twelfth of the cover,
 23 ‘Streetwise’ appears together with ‘Manhattan’ and uses one-third of the cover’s space. Hence,
 24 in our view the marks are not confusingly similar”); *Estee Lauder*, *supra*, 108 F.3d at (citing
 25 1512 (citing, *inter alia*, “the facts that the rendering of ‘100%’ in the two sets of marks is different
 26 in appearance [and] that the appearance of the packaging overall is quite different in graphic
 27 design,” in holding that there was no likelihood of consumer confusion as a matter of law);
 28 *W.W.W. Pharm. Co. v. Gillette Co.*, 984 F.2d 567, 573 (2d Cir. 1993) (“Although the marks are

1 composed of the same words and sound the same when uttered, several factors distinguish them.
 2 First, WWW's mark appears as one word and is the only identifier of the product. On Gillette's
 3 product, however, the words 'sport' and 'stick' are preceded in larger letters by the well-known
 4 brand name 'Right Guard.' . . . The words 'sport' and 'stick' are about one-third the size of the
 5 Right Guard logo and the same size as the word 'deodorant' or 'deodorant anti-perspirant.' The
 6 district court found that the diminutive size of the words 'sport' and 'stick' was true for most of
 7 Gillette's advertising. In addition, Gillette's 'sport' and 'stick' are separated by a running figure.
 8 The dissimilar modes of presentation make confusion less likely"); *Lang v. Retirement Living*
 9 *Publishing Co.*, 949 F.2d 576, 581-82 (2d Cir. 1991) ("Both designations include as their focal
 10 point the words 'New Choices.' However, Lang's name always includes the word 'Press,'
 11 whereas Retirement Living's mark always includes the words 'For The Best Years.' The typeface
 12 also serves to distinguish the two designations, as does the location of the designations on the
 13 products. . . . As such, the general impression conveyed to the public by these designations
 14 differs significantly, and therefore we agree with the district court that the similarities do not
 15 create an issue of fact on the likelihood of consumer confusion"); *Lindy Pen Co. v. Bic Pen Co.*,
 16 725 F.2d 1240, 1245 (9th Cir. 1984) ("Overwhelming evidence at trial established that the Lindy
 17 and Bic pens and all packaging, display and promotional materials were dissimilar in appearance
 18 and readily distinguishable. The trial court further found that the trademarks 'BIC' and LINDY'
 19 were prominently and repeatedly displayed on the pens and all packaging and promotional
 20 materials. The trial court therefore concluded that the two marks, Lindy's 'Auditor's' and Bic's
 21 'Auditor's fine point,' considered in the context in which they appeared in the marketplace, were
 22 not confusingly similar"), cert. denied, 469 U.S. 1188 (1985).¹⁴³

23

24

¹⁴³Glow, Inc. argues that such differences are not controlling, as defendants have advertised GLOW BY J. LO in a way that emphasizes "glow" and de-emphasizes the products' connection with Lopez or "J.Lo." The advertisements proffered for the court's consideration utilize the phrase "It's the Glow . . . The New Fragrance by Jennifer Lopez." "Glow" is printed in significantly larger type than "The New Fragrance by Jennifer Lopez." Additionally, it is orange, while the balance of the text is black. The ad, therefore, focuses the reader's attention on "Glow," and divorces it from references to Lopez. Defendants assert they have adopted "guidelines" for GLOW

d. Evidence Of Actual Confusion

Evidence of actual confusion is not necessary to prevail on an infringement claim or to secure injunctive relief. See *Academy of Motion Picture Arts & Sciences v. Creative House Promotions, Inc.*, 944 F.2d 1446, 1456 (9th Cir. 1991) (“actual confusion is not necessary to a finding of likelihood of confusion under the Lanham Act”); *Levi Strauss, supra*, 778 F.2d at 1360 (“The absence of evidence of actual confusion need not give rise to an inference of no likelihood of confusion”); *Golden Door, Inc. v. Odisho*, 646 F.2d 347, 352 (9th Cir. 1990) (affirming the grant of an injunction for plaintiff despite the absence of evidence of actual consumer confusion). Proof of actual confusion, however, “is persuasive proof that future confusion is likely.” *Sleekcraft, supra*, 599 F.2d at 352. See also *Rodeo Collection, Ltd. v. West Seventh*, 812 F.2d 1215, 1218 (9th Cir. 1987) (“Evidence of actual confusion is strong evidence of likelihood of confusion, but it is not determinative”); *World Carpets, Inc. v. Dick Littrell’s New World Carpets*, 438 F.2d 482, 489 (5th Cir. 1971) (“[t]here can be no more positive or substantial proof of the likelihood of confusion than proof of actual confusion. Moreover, reason tells us that while very little proof of actual confusion would be necessary to prove the likelihood of confusion, an almost overwhelming amount of proof would be necessary to refute such proof”); *Dominion Bankshares Corp. v. Devon Holding Co., Inc.*, 690 F. Supp. 338, 347 (E.D. Pa. 1988) (“[a]ctual confusion is one of the most reliable indications of the likelihood of confusion”); *Jockey Int’l, Inc. v. Burkard*, 185 U.S.P.O. 201, 207 (S.D. Cal. 1975) (“[s]ince reliable evidence of actual confusion

BY J.LO advertising that will minimize any possible consumer confusion in the future. Defendants do not specify what these guidelines are; presumably, however, they relate to the matters plaintiff has highlighted. Despite defendants' representation, Glow, Inc. proffers evidence that at least one print advertisement currently in circulation continues to use the offending phrase, coloring and typeface. (Williamson Reply Decl., Ex. S.) It also proffers evidence that a current television advertisement focuses viewer attention on the "glow" portion of mark through verbal repetition of the phrase "Get the Glow," followed by visual display and verbal repetition of the product name GLOW BY J.LO. (*Id.*, Ex. T.) Were Glow, Inc.'s showing on the protectability of its mark and the other elements of likelihood of confusion stronger, the court might consider addressing this issue by issuing a limited injunction precluding use of the offending phrase in advertisements. Because Glow, Inc. has not demonstrated a likelihood that it will prove it has a protectable mark, however, the court does not reach the issue at this time.

1 is difficult to obtain in trademark infringement cases, any such evidence is substantial evidence
 2 that confusion is likely").

3 At least three types of evidence are probative of confusion: (1) evidence of actual instances
 4 of confusion; (2) survey evidence; and (3) inferences arising from judicial comparison of the
 5 conflicting marks and the context of their use in the marketplace. *Cairns v. Franklin Mint Co.*,
 6 24 F. Supp. 2d 1013, 1040 (C.D. Cal. 1998) (quoting *Dr. Seuss Enterprises, L.P. v. Penguin*
 7 *Books USA, Inc.*, 109 F.3d 1394, 1404 (9th Cir. 1997)). Glow, Inc. has not produced a consumer
 8 survey. Cf. *Anti-Monopoly, Inc. v. General Mills Fun Group, Inc.*, 684 F.2d 1316, 1323 (9th
 9 Cir. 1982) (holding that consumer surveys are legitimate evidence in trademark cases). Rather,
 10 it has produced two facsimiles from a wholesale customer and the handwritten notes of employees
 11 who recorded comments made by retail customers.¹⁴⁴ While this constitutes some evidence of
 12 actual reverse confusion, it is not sufficient to support a general likelihood of confusion finding.
 13 See *Platinum Home Mortgage Corp. v. Platinum Financial Group, Inc.*, 149 F.3d 722, 729 (7th
 14 Cir. 1998) ("[D]e minimis evidence of actual confusion" does not establish a likelihood of
 15 consumer confusion, and the evidence presented must "refer to the confusion of reasonable and
 16 prudent consumers, . . . not confusion among sophisticated members" of the consuming public").
 17 Compare *Chronicle Pub. Co. v. Chronicle Publications, Inc.*, 733 F. Supp. 1371, 1377-78 (N.D.
 18 Cal. 1990) ("Plaintiff has provided substantial evidence of actual confusion in the form of over
 19 100 instances of customer confusion. These include book wholesalers requesting copies of
 20 defendant's publications from plaintiff, retailers and wholesalers attempting to return unused
 21 copies of defendant's books to plaintiff, bills for defendant's advertising being sent to plaintiff and
 22 congratulations on defendant's sales figures being conveyed to plaintiff. . . . This constitutes
 23 substantial evidence of actual confusion and weighs heavily in favor of plaintiff"). Here, at most,
 24 Glow, Inc. present de minimis evidence of actual confusion; some of it, moreover, involves
 25 "sophisticated" wholesalers who might be expected to inquire about the affiliation, if any,
 26 between the companies.

27
 28 ¹⁴⁴Williamson Decl., ¶ 12, Ex. E.

1 Williamson's testimony that department stores and Glow, Inc.'s investor group have tabled
 2 plans for expansion of the product line does not indicate consumer confusion, but business caution
 3 in the face of uncertain market competition.¹⁴⁵ Accordingly, this *Sleekcraft* factor does not favor
 4 a finding that Glow, Inc. will be able to prove a likelihood of consumer confusion.

5 **e. The Degree To Which The Marketing Channels Converge And The**
 6 **Likelihood That The Product Lines Will Expand**

7 Glow, Inc. asserts that the parties utilize the same marketing channels because:
 8 (1) "Macy's and Nordstrom are often located side by side under the same roof in shopping
 9 malls;" (2) "Both products are additionally sold in specialty stores which may also appear side
 10 by side;" and (3) "The products are also sold side by side on the Internet."¹⁴⁶

11 The marketing channels factor requires that the court consider whether the predominant
 12 purchasers of the parties' goods are similar or different, and whether the marketing approaches
 13 used resemble each other. See *Gray v. Meijer, Inc.*, 295 F.3d 641, 649 (6th Cir. 2002). See also
 14 *Frehling Enterprises, Inc. v. International Select Group, Inc.*, 192 F.3d 1330, 1339 (11th Cir.
 15 1999) ("Dissimilarities between the retail outlets for and the predominant customers of plaintiff's
 16 and defendant's goods lessen the possibility of confusion, mistake, or deception. . . . This factor
 17 takes into consideration where, how, and to whom the parties' products are sold," quoting *Amstar*
 18 *Corp. v. Domino's Pizza, Inc.*, 615 F.2d 252, 262 (5th Cir.), cert. denied, 449 U.S. 899 (1980)).
 19 Direct competition between the parties' products is not required for this factor to weigh in favor
 20 of a likelihood of confusion. Similarly, the parties' outlets and customer bases need not be
 21 identical; rather, some degree of overlap must be present before the factor favors a finding of
 22 likelihood of confusion. *Frehling Enterprises, supra*, 192 F.3d at 1339. See also *Century 21*
 23 *Real Estate Corp. v. Century Life of America*, 970 F.2d 874, 877 (Fed. Cir. 1992) ("An opposer
 24 need not establish the sale of both parties' services by the same vendor to show employment of
 25 the same trade channels. . . . Rather, this factor covers 'similarity and dissimilarity of

27 ¹⁴⁵*Id.*, ¶¶ 7-8; Williamson Reply Decl., ¶¶ 3, 14.

28 ¹⁴⁶Pl.'s Reply at 10:8-11.

1 established, likely-to-continue trade channels.’ . . . This court does not limit channels of trade
 2 to identical stores or agents. Rather a channel of trade includes the same type of distribution
 3 channel. For example, this court has held channels of trade identical when products were sold
 4 under opposing marks in supermarkets and grocery stores across the country. . . . An opposer
 5 does not have the burden to show sales of an infringing product by a specific chain of
 6 supermarkets or agents”).

7 Here, both Glow, Inc. and defendants offer products for sale in upscale department stores
 8 such as Nordstrom’s and Macy’s. They also place their products in specialty stores that cater to
 9 high-end retail customers. This is sufficient to support a finding that they use similar marketing
 10 channels. This finding is reinforced when one considers that both companies offer their products
 11 for sale over the internet. See, e.g., *Brookfield Communications*, *supra*, 174 F.3d at 1057
 12 (holding that the companies used similar marketing channels because of their “simultaneous use
 13 of the Web as a marketing and advertising tool”). Accordingly, the court finds that this factor
 14 favors the conclusion that Glow, Inc. will probably be able to establish a likelihood of consumer
 15 confusion.¹⁴⁷

16 Glow, Inc. also asserts that both it and defendants intend to expand their respective product
 17 lines and the markets in which they sell. The evidence before the court indicates that defendants
 18 have some intention of expanding beyond the lotion, shower gel and fragrance products they
 19

20 ¹⁴⁷It is in analyzing whether the parties use similar marketing channels that defendants’
 21 argument regarding the differences between “mass marketed” fragrances and natural,
 22 aromatherapy products may be most pertinent. See 4 J. Thomas McCarthy, MCCARTHY ON
 23 TRADEMARKS AND UNFAIR COMPETITION, § 24:51 (4th ed. 2002) (discussing the *Sunenblick* case
 24 in this context). As noted earlier, however, the record contains no evidence that purchasers of
 25 “mass marketed” fragrances or lotions do not also buy natural, aromatherapy products. Given
 26 this fact, and the fact that the products are sold in the same types of stores and are used for the
 27 same purposes, there is no basis for a finding that the audience for one type of product is
 28 completely distinct from the audience for the other. See *Clinique Laboratories, Inc. v. Dep*
Corp., 945 F. Supp. 547, 554-55 (S.D.N.Y. 1996) (noting that, because of “cross-shopping,”
 no significant line could be drawn insulating those who shopped for plaintiff’s skin care products
 in “class” department and specialty stores from those who shopped for defendant’s competing
 product at “mass” discount retailers, and concluding, based on “the evidence of cross-shopping
 and advertising,” that “the ‘mass’ and ‘class’ markets are not truly distinct”).

1 currently sell to other types of cosmetics. Williamson has been attempting to negotiate
 2 distribution arrangements with a number of department and speciality stores. It appears,
 3 therefore, that there is the potential for even more direct competition between the two lines in the
 4 future. The "likelihood of expansion" factor thus favors a likelihood of confusion finding as
 5 well.

6 f. Degree Of Care Exercised By Consumers

7 Neither party has proffered evidence regarding the care exercised by consumers in
 8 purchasing products such as skin lotion, shower gel and fragrance. Courts have previously
 9 recognized, however, that purchasers of fragrances and skin care products tend to exercise a high
 10 degree of care and brand consciousness. See *Lucien Lelong, Inc. v. Lenel, Inc.*, 181 F.2d 3, 4
 11 (5th Cir. 1950) ("The pronunciation of these names might bring about a sounding of similarity;
 12 but buyers of [cologne] are meticulous and do not depend solely on pronunciation"); *La Cibeles,*
 13 *Inc. v. Adipar, Ltd.*, No. 99 Civ. 4129(AGS), 2000 WL 1253240 (S.D.N.Y. Sept. 1, 2000)
 14 ("Additionally, 'it has been acknowledged that women tend to be sophisticated purchasers of
 15 perfume'"); *Conopco, Inc. v. Cosmair, Inc.*, 49 F. Supp. 2d 242, 257 (S.D.N.Y. 1999) ("There
 16 is ample evidence in the record that the purchasers of expensive perfumes from high-end
 17 department and specialty stores, who are often assisted by retail selling specialists and beauty
 18 advisors, . . . are sophisticated and discriminating consumers. . . . Other Courts faced with this
 19 question have reached the same result"); *Clinique, supra*, 945 F. Supp. at 556 ("The evidence
 20 shows that most consumers of skin care products are women (and the products at issue are
 21 marketed to women), who take care in deciding what products to use on their skin, particularly
 22 the skin on their faces. While Clinique's products are not extravagantly priced, they are sold in
 23 high quality department stores. Under these circumstances, sophistication of consumers usually
 24 militates against a finding of likelihood of confusion"); *Giorgio Beverly Hills, supra*, 869 F. Supp.
 25 at 185 ("it has been acknowledged that women tend to be sophisticated purchasers of perfume");
 26 *Edison Bros. Stores v. Cosmair, Inc.*, 651 F. Supp. 1547, 1651-52 (S.D.N.Y. 1987) (holding that
 27 purchasers of perfumes "are likely to devote a high degree of care and attention to their
 28 selection"); *Nina Ricci, SARL v. Gemcraft, Ltd.*, 612 F. Supp. 1520, 1529 (S.D.N.Y. 1985)

1 ("Women who use expensive perfumes are sophisticated and discriminating customers"); *P.F.*
 2 *Cosmetique SA v. Minnetonka, Inc.*, 605 F. Supp. 662, 671 (S.D.N.Y. 1985) (concluding that
 3 purchasers of top-of-the-line beauty products in roughly similar product packaging often
 4 distinguish between products that share a number of common elements); *Jean Patou, Inc. v.*
 5 *Jacqueline Cochran, Inc.*, 201 F. Supp. 861, 866 (S.D.N.Y. 1962) ("The women who buy
 6 plaintiff's and defendant's products are apt to make an individual choice. There is a vast array
 7 of cosmetics on the market varying greatly in price and in the claims made by their producers.
 8 The products are not all alike; their potential customers realize this, and tend to be selective"),
 9 aff'd., 312 F.2d 125 (2d Cir. 1963). See also *Frances Rothschild, Inc. v. U.S. Cosmetic*
 10 *Fragrance Marketing Corp.*, 223 U.S.P.Q. 817, 818 (N.D. Tex. 1983) ("Retailers' utilization
 11 of 'demonstrators' (trained sales persons) in the sale of men's fragrance products helps inform
 12 customers of the differences in the products").

13 Glow, Inc. argues that such products are also commonly purchased on impulse or as gifts.
 14 See *Elizabeth Taylor Cosmetics, supra*, 673 F.Supp. at 1246 ("[T]here are really two groups of
 15 perfume consumers: women who buy the products for themselves and men who buy it as gifts for
 16 women. In general, women are sophisticated fragrance consumers: 'They know their perfume.'
 17 Men, however, tend to be less sophisticated. All buyers may be slightly less sophisticated in this
 18 case, because Taylor's product is relatively new and Goutal's sales have only recently become at
 19 all substantial. Nevertheless, assuming more women buy perfume than men, this factor weighs
 20 slightly in Taylor's favor" (citations omitted)). While there are no doubt some impulse and gift
 21 purchases, the court finds, on balance, that this factor favors defendants, and undercuts plaintiff's
 22 ability to demonstrate that it will probably prove a likelihood of consumer confusion.

23 **g. Defendants' Intent In Adopting The Mark**

24 Knowing adoption of a mark closely similar to another is a sound basis for inferring an
 25 intent to deceive. See, e.g., *Official Airline Guides, supra*, 6 F.3d at 1394 ("[w]hen an alleged
 26 infringer knowingly adopts a mark similar to another's, courts will presume an intent to deceive
 27 the public"). See also *Daddy's Junky Music Stores, Inc. v. Big Daddy's Family Music Ctr.*, 109
 28 F.3d 275, 286 (6th Cir. 1997) ("the use of a contested mark with knowledge of the protected

1 mark at issue can support a finding of intentional copying"); 3 J. McCarthy, TRADEMARKS AND
 2 UNFAIR COMPETITION, § 23:115 (4th ed. 2002) ("[i]f a well-known and strong mark has been
 3 used in identical format by a junior user, it appears reasonable to require the junior user to carry
 4 the burden of explanation and persuasion as to his motive in adopting the mark"). Generally, in
 5 the reverse confusion context, it is not likely that there will be evidence defendant intended to
 6 adopt the senior user's mark. See *A & H Sportswear, supra*, 237 F.3d at 232. Where there is,
 7 however, the factor is evaluated in the same manner as in a direct confusion case. *Id.*

8 Glow, Inc. proffers evidence that a gift basket of GLOW products was delivered to Lopez
 9 in 2001.¹⁴⁸ It also adduces evidence that the producer of a television show featuring Lopez's sister
 10 knew of the GLOW mark, and requested plaintiff's permission to use the mark in a September
 11 2001 episode.¹⁴⁹ Defendants assert this is insufficient, without more, to support an inference of
 12 intentional copying. The court agrees. The inference plaintiff would have the court draw is far
 13 too attenuated, particularly given the number of beauty products in the market that utilize the term
 14 "glow." This factor, therefore, weighs against a finding that Glow, Inc. will probably be able
 15 to prove a likelihood of consumer confusion.

16 3. Evaluation Of The Factors

17 Having examined the *Sleekcraft* factors, the court finds it is likely that three will favor
 18 Glow, Inc., and five will favor defendants. As noted earlier, however, the factors should not be
 19 applied mechanistically, but as a guide in assessing likelihood of confusion. See *Dreamwerks*,
 20 *supra*, 142 F.3d at 1129; *E. & J. Gallo Winery, supra*, 967 F.2d at 1290. In reverse confusion
 21 cases such as this one, the strength of the mark, the relatedness of the parties' goods, and the
 22 similarity of the marks are particularly relevant. See *Dreamwerks, supra*, 142 F.3d at 1130.
 23 With these principles in mind, the court concludes it is not likely that Glow, Inc. will ultimately
 24 prove a likelihood of consumer confusion. While the court has found that Glow, Inc. will likely
 25 be able to prove that the goods the parties sell are related, it has also found that the conceptual

26
 27 ¹⁴⁸Williamson Decl., ¶ 10, Ex. D.

28 ¹⁴⁹Williamson Reply Decl., ¶ 25.

1 strength of Glow, Inc.'s mark is relatively weak, that numerous cosmetic companies utilize the
 2 mark in some fashion in connection with the sale of lotion and fragrance products, and because
 3 of these facts, it is not apparent that consumers will associate plaintiff's products with GLOW BY
 4 J.LO despite defendants' commercial strength and advertising expenditures. Coupled with the fact
 5 that consumers of fragrance and skin care products tend to exercise care in making their
 6 selections, the minimal evidence of actual confusion, and the absence of evidence of intent, Glow,
 7 Inc. has not demonstrated that it will probably prove a likelihood of consumer confusion. Because
 8 it also has not established that it will likely prove it is the owner of a protectable mark, the court
 9 concludes it has not demonstrated a likelihood of success on the merits of its trademark
 10 infringement claim.

11 C. Irreparable Harm/Balance Of Hardships

12 Where a party demonstrates a likelihood of succeeding on a trademark infringement claim,
 13 irreparable harm is presumed. See *Genessee Brewing Co. v. Stroh Brewing Co.*, 124 F.3d 137,
 14 142 (2d Cir. 1997) (holding that this was true for an unregistered trademark and stating that a
 15 "showing of likelihood of confusion (a requirement of both trademark infringement and unfair
 16 competition claims) establishes irreparable harm"); *International Jensen, Inc v. Metrosound
 U.S.A., Inc.*, 4 F.3d 819, 826 (9th Cir. 1993) ("In trademark cases, once the plaintiff establishes
 17 a likelihood of confusion between the plaintiff's mark and the defendant's, it is ordinarily
 18 presumed the plaintiff will suffer irreparable harm if injunctive relief is not granted"); *Metro
 Pub., Ltd. v. San Jose Mercury News*, 987 F.2d 637, 640 (9th Cir. 1993) (likelihood of confusion
 21 establishes irreparable harm as respects the unauthorized use of an unregistered trademark);
Processed Plastic Co. v. Warner Communications, Inc., 675 F.2d 852, 858 (7th Cir. 1982)
 23 ("damages occasioned by trademark infringement are by their very nature irreparable and not
 24 susceptible of adequate measurement for remedy at law"); *Teletech Customer Care Management,
 Inc. v. Teletech Co.*, 977 F. Supp. 1407, 1412 (C.D. Cal. 1997) (enjoining a defendant that was
 26 using plaintiff's corporate name as a domain name, the court noted that "there is always
 27 irreparable injury when trademark infringement exists," citing *Dep Corporation v. Opti-Ray, Inc.*,
 28 768 F. Supp. 710, 717 (C.D. Cal. 1991)). See also 15 U.S.C. § 1116 (an injunction is an

available remedy for trademark infringement or violation of § 43(a)). Because Glow, Inc. has not demonstrated a likelihood of success, irreparable harm may not be presumed.

The court may also issue an injunction, however, if it finds that there are “serious questions” going to the merits of the claim, and that the balance of hardships tips “sharply” in the movant’s favor. *Id.* “In evaluating the balance of hardships a court must consider the impact granting or denying a motion for a preliminary injunction will have on the respective enterprises.” *International Jensen, supra*, 4 F.3d at 826. Glow, Inc. has presented no evidence that it has suffered, or will suffer, irreparable harm due to defendants’ actions. Williamson asserts that potential wholesalers of Glow, Inc. products have advised her that they will not make purchasers until this case is resolved. Similarly, some of the investors with whom Williamson has been negotiating have declined to continue the discussions until the litigation is concluded. Williamson proffers no evidence, however, that Glow, Inc.’s current wholesalers or business outlets have been affected by the launch of defendants’ products. Nor does she contend that her business cannot survive the launch of defendants’ product line, or that her existing market or goodwill will be impacted.¹⁵⁰ See *Kaisha v. Swiss Watch International, Inc.*, 188 F. Supp. 2d 1350, 1355 (S.D. Fla. 2002) (stating, in a case where the court did not find a substantial likelihood of confusion, that the showing of irreparable harm was inadequate because “the threat to Plaintiff’s goodwill and reputation is minimal, and . . . Plaintiff may be compensated sufficiently with monetary

¹⁵⁰ At the preliminary injunction hearing, Glow, Inc.’s counsel requested an opportunity to supplement the record, and provide additional evidence of the harm the company will suffer if an injunction does not issue. After consideration, the court denies plaintiff’s request. Glow, Inc. has had sufficient opportunity to proffer evidence demonstrating that it will suffer harm if an injunction does not issue in this case. Despite the fact that it bears the burden of proof in this proceeding, it submitted minimal evidence supporting its request for injunctive relief at the time it filed its moving papers. The majority of the evidence and legal argument on which it relies was contained in its reply to defendants’ opposition. Submitting the bulk of one’s legal argument and evidence only in reply deprives the opposing party of a fair opportunity to respond, and contravenes the Local Rules. See CA CD L.R. 7-5 (moving party shall include a complete statement of its legal arguments and the evidence on which it relies in its moving papers). To permit plaintiff to supplement the record further at this stage of the proceedings in order to correct deficiencies in the original showing would simply prejudice defendants further and reward plaintiff’s questionable litigation strategy. This the court declines to do.

1 damages"). Cf. *Rent-A-Center v. Canyon Television & Appliance Rental, Inc.*, 944 F.2d 597,
 2 603 (9th Cir. 1991) (intangible injuries, such as damage to goodwill, qualify as irreparable harm).
 3 Glow, Inc. asserts that defendants' continued sale and advertising of GLOW BY J. LO products will
 4 disrupt its relationship with wholesalers, who will refuse to carry GLOW products because they
 5 perceive them to be a "knock off" of defendants' line.¹⁵¹ No evidence in the record supports this
 6 assertion, however, and the court cannot simply assume that it is true.

7 As respects the harm that they would suffer if an injunction were to issue, defendants
 8 contend that they have invested \$29.5 million to date in manufacturing, advertising, marketing
 9 and promoting GLOW BY J. LO products.¹⁵² They assert that a four to six month delay would occur
 10 if they were required to change their product packaging, and speculate that as much as \$13 million
 11 in sales could be lost during that time.¹⁵³ They also maintain that the success rate for new
 12 fragrances is low, even with a constant brand presence and strong advertising support.¹⁵⁴ Glow,
 13 Inc. aptly notes that defendants were warned against using the mark before they launched the
 14 GLOW BY J. LO line.¹⁵⁵ Even discounting defendants' showing of potential harm, however, and
 15 assuming *arguendo* that plaintiff has raised serious questions regarding the merits of its claim, the
 16 court cannot find that the balance of hardships tips sharply in Glow, Inc.'s favor. Accordingly,
 17 it cannot grant injunctive relief under the alternate formulation recognized in Ninth Circuit case
 18 law.¹⁵⁶

19
 20 ¹⁵¹Pl.'s Reply at 12:21-23.

21 ¹⁵²Walsh Decl., ¶ 26.

22 ¹⁵³*Id.*, ¶ 27.

23 ¹⁵⁴*Id.*, ¶ 31.

24 ¹⁵⁵Pl.'s Reply at 12:7-12.

25 ¹⁵⁶Because Glow, Inc. has not demonstrated that it is likely to prove it has protectable
 26 rights in the GLOW trademark, the court assesses the public interest factor as neutral on the present
 27 record. See, e.g., *AM General Corp. v. DaimlerChrysler Corp.*, __ F.3d __, 2002 WL 31545350
 28 (7th Cir. Nov. 18, 2002) ("The public interest favors the injunction, DaimlerChrysler contends,
 because the enforcement of trademark laws protects consumers from confusion"); *Eli Lilly & Co.*

III. CONCLUSION

For the forgoing reasons, plaintiffs' motion for a preliminary injunction is denied.

DATED: December 13, 2002

MARGARET M. MORROW
UNITED STATES DISTRICT JUDGE

²⁷ *v. Natural Answers, Inc.*, 233 F.3d 456, 469 (7th Cir. 2000) (“. . . the public interest is served by the injunction because enforcement of the trademark laws prevents consumer confusion”).
